

Safety Data Sheet

Perchlorate in water

Version : V2.0.0.1

Report No. : BWJ4007-2016-MSDS-EP

Creation Date : 2026/01/28

Revision Date : -

*Prepared in accordance with EU REACH Regulation (REACH 1907/2006 with amendment 2020/878)

1 Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Product Name	Perchlorate in water
Cat No.	BWJ4007-2016
CAS No.	Not applicable
EC No.	Not applicable
Molecular Formula	Not applicable
REACH Registration Number	-
UFI	No information available

1.2 Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses	Please consult manufacturer.
Uses advised against	Please consult manufacturer.

1.3 Details of the supplier of the Safety Data Sheet

Name of the company	Weiyel Inc
Address of the company	Hedian Light Industrial Park, Chengguan Town, Shangcheng County, Xinyang City, Henan Province, China
Post code	465350
Telephone number	010-58103678
Fax number	010-84840368
E-mail address	info@weiyel.com

1.4 Emergency telephone number

Emergency telephone number	010-58103678
Opening hours	24h

2 Hazards identification

2.1 CLP classification according to Regulation (EC) No. 1272/2008 with amendment 2023/707

Oxidizing liquids	Category 1
-------------------	------------

2.2 Label elements

Hazard pictograms	
-------------------	--

Signal word	Danger
-------------	---------------

Hazard statements

H271	May cause fire or explosion; strong oxidiser
------	--

Precautionary statements

Prevention

P210	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
P220	Keep away from clothing and other combustible materials.
P280	Wear protective gloves/protective clothing/eye protection/face protection.
P283	Wear fire resistant or flame retardant clothing.

Response

P306+P360	IF ON CLOTHING: Rinse immediately contaminated clothing and skin with plenty of water before removing clothes.
P370+P378	Small fire: water; Large fire: flood fire area with water from a distance; Fire involving tanks, rail tank cars or highway tanks: Fight fire from maximum distance or use unmanned master stream devices or monitor nozzles. Cool containers with flooding quantities of water until well after fire is out.
P371+P380+P375	In case of major fire and large quantities: Evacuate area. Fight fire remotely due to the risk of explosion.

Storage

P420	Store separately.
------	-------------------

Disposal

P501	Dispose of contents/container in accordance with local/regional/national/international regulations.
------	---

2.3 Other hazards

Results of PBT and vPvB assessment

Component	Results of PBT and vPvB assessment [according to (EC) No 1907/2006]
Lithium perchlorate	Insufficient information, temporarily unable to evaluate
Water	Insufficient information, temporarily unable to evaluate

Results of endocrine disrupting properties assessment

Component	Results of endocrine disrupting properties assessment [according to (EU) No 2017/2100 or (EU) No 2018/605]
Lithium perchlorate	Insufficient information, temporarily unable to evaluate
Water	Insufficient information, temporarily unable to evaluate

Other

	Not applicable.
--	-----------------

3 Composition/information on ingredients

3.1 Substance

	Not applicable
--	----------------

3.2 Mixture

Component	Weight % content(or range)	Classification according to Regulation (EC) No. 1272/2008 with amendment 2023/707 [CLP]	Specific Conc. Limits, M-factors
Lithium perchlorate CAS : 7791-03-9 EC : 232-237-2 Index No. : -	0.1	Oxidizing solids, Category 1, H271; Acute Toxicity - Oral, Category 4, H302; Skin corrosion/irritation, Category 1B, H314; Serious eye damage/irritation, Category 1, H318; Specific target organ toxicity - repeated exposure, Category 2, H373	-
Water CAS : 7732-18-5 EC : 231-791-2 Index No. : -	99.9	Not Classified	-

4 First-aid measures

4.1 Description of first aid measures

General advice	Immediate medical attention is required. Show this safety data sheet (SDS) to the doctor in attendance.
Eye contact	Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician if feel uncomfortable.
Skin contact	Take off contaminated clothing and shoes immediately. Wash off with plenty of soap and water for at least 15 minutes and consult a physician if feel uncomfortable.
Ingestion	Never give anything by mouth to an unconscious person. Call a physician or Poison Control Center immediately.
Inhalation	Move victim into fresh air. If breathing is difficult, give oxygen. Do not use mouth to mouth resuscitation if victim ingested or inhaled the substance. If not breathing, give artificial respiration and consult a physician immediately.
Protecting of first-aiders	Ensure that medical personnel are aware of the substance involved. Take precautions to protect themselves and prevent spread of contamination.

4.2 Most important symptoms/effects, acute and delayed

1	Substance accumulation, in the human body, may occur and may cause some concern following repeated or long-term occupational exposure.
---	--

4.3 Indication of any immediate medical attention and special treatment needed

1	Treat symptomatically.
2	Symptoms may be delayed.

5 Fire-fighting measures

5.1 Extinguishing media

Suitable extinguishing media	Small fire: water; Large fire: flood fire area with water from a distance; Fire involving tanks, rail tank cars or highway tanks: Fight fire from maximum distance or use unmanned master stream devices or monitor nozzles. Cool containers with flooding quantities of water until well after fire is out.
Unsuitable extinguishing media	Small fire: do not use dry chemicals or foams. CO ₂ or Halon?may provide limited control.

5.2 Specific hazards arising from the substance or mixture

1	Will not burn but increases intensity of fire.
---	--

2	Contact with combustibles such as wood, paper, oil or finely divided metal may produce spontaneous combustion or violent decomposition.
3	Has a fire-promoting effect due to release of oxygen.
4	The material may provide sufficient oxygen to make the fire fierce and self sustaining.
5	Smothering action may not be effective for established fire.
6	Development of hazardous combustion gases or vapor possible in the event of fire.
7	May expansion or decompose explosively when heated or involved in fire.

5.3 Advice for firefighters

1	As in any fire, wear self-contained breathing apparatus (MSHA/NIOSH approved or equivalent) and full protective gear.
2	Fight fire from a safe distance, with adequate cover.
3	Prevent fire extinguishing water from contaminating surface water or the ground water system.

6 Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

1	Keep combustibles (wood, paper, oil, etc.) away from spilled material.
2	Use personal protective equipment, do not breathe gas/mist/vapour/spray.
3	Ensure adequate ventilation. Remove all sources of ignition. Take precautionary measures against static discharges.
4	Evacuate personnel to safe areas. Keep people away from and upwind of spill/leak.

6.2 Environmental precautions

1	Prevent further leakage or spillage if safe to do so.
2	Discharge into the environment must be avoided.

6.3 Methods and materials for containment and cleaning up

1	It is recommended that emergency personnel wear positive pressure self-contained breathing apparatus and wear anti-static clothing.
2	In case of small amount of spillage, use clean non sparking tools to collect absorption materials.
3	In case of large amount of spillage, construct cofferdam or dig a hole to collect the spillage. Use foam cover to reduce evaporation. Water spray mist can reduce evaporation, but can not reduce the flammability of the leakage in the restricted space.
4	Collect absorbent material using a clean, non-sparking tool.
5	Cover with anti-solvent foam to reduce evaporation.
6	Cover with DRY earth, DRY sand or other non-combustible material followed with plastic sheet to minimize spreading or contact with rain.
7	Water spray reduces evaporation but does not reduce the flammability of spills in confined spaces.
8	Cut off the source of the leak as much as possible.
9	Keep leaks in a ventilated place.
10	Absorb spilled material in dry sand or inert absorbent. In case of large amount of spillage, contain a spill by bunding.
11	Adhered or collected material should be promptly disposed of, in accordance with appropriate laws and regulations.
12	Contain spillage, and then collect with an electrically protected vacuum cleaner or by wet-brushing and place in container.
13	Remove all sources of ignition. Use spark-proof tools and explosion-proof equipment.

6.4 Reference to other sections

1	Personal Protective Equipment advice is contained in Section 8 of the SDS.
2	Disposal considerations advice is contained in Section 13 of the SDS.

7 Handling and storage

7.1 Precautions for safe handling

◆ Protective measures

1	Handling is performed in a well ventilated place.
2	Wear suitable protective equipment.
3	Avoid contact with skin and eyes.

◆ Measures to prevent fire

1	Keep away from heat/sparks/open flames/ hot surfaces.
---	---

◆ Measures to prevent aerosol and dust generation

1	Not applicable.
---	-----------------

◆ Advice on general occupational hygiene

1	Wash hands and face after using the substances.
2	Replace the contaminated clothing immediately.

7.2 Conditions for safe storage, including any incompatibilities

1	Keep containers tightly closed.
2	Keep containers in a dry, cool and well-ventilated place.
3	Keep away from heat/sparks/open flames/hot surfaces.
4	Store away from incompatible materials and foodstuff containers.

7.3 Specific end use(s)

1	In addition to use mentioned in the Section 1.2, unforeseen other specific end uses.
---	--

8 Exposure controls/personal protection

8.1 Control parameters

◆ Occupational exposure limit values

Occupational Exposure limit values	No relevant regulations
---	-------------------------

◆ Biological limit values

Biological limit values	No relevant regulations
--------------------------------	-------------------------

◆ Monitoring methods

1	EN 14042 Workplace atmospheres. Guide for the application and use of procedures for the assessment of exposure to chemical and biological agents.
2	GBZ/T 300 and GBZ/T 160 series standard Determination of toxic substances in workplace air.

◆ Derived No effect level (DNEL)

Component	Route of exposure	DNEL for Workers			
		Acute effects (local)	Acute effects (systemic)	Chronic effects (local)	Chronic effects (systemic)
Lithium perchlorate	Inhalation	No data available	No data available	No data available	No data available
	Oral	No data available	No data available	No data available	No data available
	Dermal	No data available	No data available	No data available	No data available
Water	Inhalation	No data available	No data available	No data available	No data available
	Oral	No data available	No data available	No data available	No data available
	Dermal	No data available	No data available	No data available	No data available

◆ Predicted No Effect Concentration (PNEC)

Predicted No Effect Concentration (PNEC)	No information available
--	--------------------------

8.2 Exposure controls

8.2.1 Engineering controls

1	Ensure adequate ventilation, especially in confined areas.
2	Ensure that eyewash stations and safety showers are close to the workstation location.
3	Use explosion-proof electrical/ventilating/lighting/equipment.
4	Set up emergency exit and necessary risk-elimination area.

8.2.2 Personal protection equipment

General requirement	
Eye protection	Must wear appropriate safety goggles.
Hand protection	Must wear appropriate chemical protective gloves.
Respiratory protection	Must wear appropriate personal respiratory protective equipment.
Skin and body protection	Must wear appropriate chemical protective clothing and chemical resistant shoes.

8.2.3 Environmental exposure controls

Environmental exposure controls	No information available
---------------------------------	--------------------------

9 Physical and chemical properties

9.1 Information on basic physical and chemical properties

Physical state	colorless liquid
Colour	colorless liquid
Odor	No special odor (Lithium perchlorate)
Odor threshold	No information available (Lithium perchlorate)
pH	7 (Neutral) (Lithium perchlorate)
Melting point/freezing point(°C)	236 (Lithium perchlorate)
Initial boiling point and boiling range(°C)	No information available (Lithium perchlorate)
Flash point(Closed cup, °C)	No information available (Lithium perchlorate)

Evaporation rate	No information available (Lithium perchlorate)
Flammability	Not combustible (Lithium perchlorate)
Upper/lower explosive limits[%(v/v)]	Upper limit : No information available (Lithium perchlorate); Lower limit : No information available (Lithium perchlorate)
Vapor pressure	Not applicable (Lithium perchlorate)
Vapor density(Air = 1)	Not applicable (Lithium perchlorate)
Relative density(Water=1)	2.295 (20 °C,Lithium perchlorate)
Solubility	464g/L (20 °C(pH=5.6~5.7),Lithium perchlorate)
n-octanol/water partition coefficient	No information available (Lithium perchlorate)
Auto-ignition temperature(°C)	Not combustible (Lithium perchlorate)
Decomposition temperature(°C)	No information available (Lithium perchlorate)
Kinematic viscosity	Not applicable (Lithium perchlorate)
Explosive properties	强氧化剂，与还原剂、有机物、硫、磷、金属粉末等混合可能引发爆炸 (Lithium perchlorate)
Oxidizing properties	Strong oxidizer, may cause fire or explosion (Lithium perchlorate)
Particle characteristics	No information available (Lithium perchlorate)

9.2 Other information

9.2.1 Information with regard to physical hazard classes

Information with regard to physical hazard classes	No information available
--	--------------------------

9.2.2 Other safety characteristics

Other safety characteristics	No information available
------------------------------	--------------------------

10 Stability and reactivity

Stability and reactivity

10.1 Reactivity	Contact with incompatible substances can cause decomposition or other chemical reactions.
10.2 Chemical stability	Stable under proper operation and storage conditions.
10.3 Possibility of hazardous reactions	Mixture with metal powders may explode if heated, impact or friction. In contact with active metals (alkali metals, Na, Ca etc.) causes a reaction and release hydrogen.
10.4 Conditions to avoid	Incompatible materials, heat, flame and spark.
10.5 Incompatible materials	Metal powder, metal amino compounds, ammonia, ammonium salts, amine, amide, carboxylic acids, phenols, alcohols, carboxylic acid esters, nitriles, sulfuric acid, concentrated nitric acid and phosphoric acid. Alkali, sodium, calcium, and other active metal, halogen, metal oxide, nonmetal oxide, acyl halide and metal phosphide.
10.6 Hazardous decomposition products	Under normal conditions of storage and use, hazardous decomposition products should not be produced.

11 Toxicological information

11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008 with amendment 2023/707

Perchlorate in water

Skin corrosion/irritation	Based on available data, the classification criteria are not met
Serious eye damage/irritation	Based on available data, the classification criteria are not met
Skin sensitization	Based on available data, the classification criteria are not met
Respiratory sensitization	Based on available data, the classification criteria are not met
Reproductive toxicity	Based on available data, the classification criteria are not met
STOT-single exposure	Based on available data, the classification criteria are not met
STOT-repeated exposure	Based on available data, the classification criteria are not met
Aspiration hazard	Based on available data, the classification criteria are not met
Germ cell mutagenicity	Based on available data, the classification criteria are not met

| Acute toxicity

Acute toxicity	No information available
-----------------------	--------------------------

| Carcinogenicity

Component	List of carcinogens by the IARC Monographs	Report on Carcinogens by NTP
Lithium perchlorate	Not Listed	Not Listed
Water	Not Listed	Not Listed

| 11.2 Information on other hazards

| 11.2.1 Endocrine disrupting properties

Component	Endocrine disrupting properties
Lithium perchlorate	No information available
Water	No information available

| 11.2.2 Other Information

Other Information	See Section 11.1
--------------------------	------------------

12 Ecological information

| 12.1 Toxicity

| Acute aquatic toxicity

Component	Fish	Crustaceans	Algae or other aquatic plants
Lithium perchlorate	No information available	EC ₅₀ : > 100mg/L (48h)(Crustaceans)	ErC ₅₀ : > 120mg/L (72h)(Algae)

| Chronic aquatic toxicity

Chronic aquatic toxicity	No information available
---------------------------------	--------------------------

| 12.2 Persistence and degradability

Component	Persistence (water/soil)	Persistence (air)
Lithium perchlorate	High	High

| 12.3 Bioaccumulative potential

Component	Bioaccumulative potential	Comments
Lithium perchlorate	Low	Log Kow=-4.6296

12.4 Mobility in soil

Component	log Koc	Remark
Lithium perchlorate	1.687	

12.5 Results of PBT and vPvB assessment

Component	Results of PBT and vPvB assessment [according to (EC) No 1907/2006]
Lithium perchlorate	Insufficient information, temporarily unable to evaluate
Water	Insufficient information, temporarily unable to evaluate

12.6 Endocrine disrupting properties

Component	Endocrine disrupting properties
Lithium perchlorate	No information available
Water	No information available

12.7 Other adverse effects

	No information available
--	--------------------------

13 Disposal considerations

13.1 Waste treatment methods

Waste chemicals	Before disposal should refer to the relevant national and local laws and regulation. Recommend the use of incineration disposal.
Contaminated packaging	Containers may still present chemical hazard when empty. Keep away from hot and ignition source of fire. Return to supplier for recycling if possible.
Disposal recommendations	Refer to section waste chemicals and contaminated packaging.

14 Transport information

Label and Mark

Transporting Label	
--------------------	---

IMDG-CODE

14.1 UN number	1479
14.2 UN proper shipping name	OXIDIZING SOLID, N.O.S.
14.3 Transport hazard class	5.1
14.4 Packing group	I
14.5 Environmental hazards (Yes or no)	No

IATA-DGR

14.1 UN number	1479
14.2 UN proper shipping name	OXIDIZING SOLID, N.O.S.
14.3 Transport hazard class	5.1
14.4 Packing group	I
14.5 Environmental hazards (Yes or no)	No

UN-ADR

14.1 UN number	1479
14.2 UN proper shipping name	OXIDIZING SOLID, N.O.S.
14.3 Transport hazard class	5.1
14.4 Packing group	I
14.5 Environmental hazards (Yes or no)	No

Special precautions for user

	Strictly prohibited shipping or transportation with acids, flammable goods, organic matter, reducing agents, spontaneous combustion, flammable goods which are wet. Transport vehicles should be equipped with the appropriate variety and quantity of fire equipment and emergency equipment leakage during transport. Before transport, should be preceded by checking whether container integrity, sealing. The transport unit must be placarded and marked in accordance with relevant transporting requirements.
--	---

Maritime transport in bulk according to IMO instruments

◆ Transport in bulk according to Annex II of MARPOL and the IBC code	Not Available
◆ Transport in bulk in accordance with MARPOL Annex V and the IMSBC Code	Not Available
◆ Transport in bulk in accordance with the IGC Code	Not Available

15 Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

International chemical inventory

Component	A	B	C	D	E	F	G	H	I	J	K	L	M

 [H] Substances subject to POPs Regulation
 [I] Substances proposed as POPs

Note:

- “√” Indicates that the substance included in the regulations.
 “x” No data or not included in the regulations.

German water hazard class(WGK)

Component	WGK	Remark
Lithium perchlorate	WGK 1	

- [WGK 1] slightly hazardous to water
 [WGK 2] obviously hazardous to water
 [WGK 3] highly hazardous to water
 [nwg] non-hazardous to water
 [awg] hazardous to water in general

German technical instructions on air quality control(TA LUFT)

No information available

German technical rules for hazardous substances(TRGS)

Component	TRGS	Remark
Water	TRGS 500 TRGS 509 TRGS 510	

15.2 Chemical safety assessment

No Chemical Safety Assessment has been carried out for this substance/mixture by the supplier.
