

## Safety Data Sheet

# Sodium arsenite solution

Version : V2.0.0.1

Report No. : BWZ6204-2016-MSDS-EP

Creation Date : 2026/01/07

Revision Date : -

\*Prepared in accordance with EU REACH Regulation (REACH 1907/2006 with amendment 2020/878)

## 1 Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

|                           |                          |
|---------------------------|--------------------------|
| Product Name              | Sodium arsenite solution |
| Cat No.                   | BWZ6204-2016             |
| CAS No.                   | Not applicable           |
| EC No.                    | Not applicable           |
| Molecular Formula         | Not applicable           |
| REACH Registration Number | -                        |
| UFI                       | No information available |

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

|                          |                              |
|--------------------------|------------------------------|
| Relevant identified uses | Please consult manufacturer. |
| Uses advised against     | Please consult manufacturer. |

### 1.3 Details of the supplier of the Safety Data Sheet

|                        |                                                                                                      |
|------------------------|------------------------------------------------------------------------------------------------------|
| Name of the company    | Weiyel Inc                                                                                           |
| Address of the company | Hedian Light Industrial Park, Chengguan Town, Shangcheng County, Xinyang City, Henan Province, China |
| Post code              | 465350                                                                                               |
| Telephone number       | 010-58103678                                                                                         |
| Fax number             | 010-84840368                                                                                         |
| E-mail address         | info@weiyel.com                                                                                      |

### 1.4 Emergency telephone number

|                            |              |
|----------------------------|--------------|
| Emergency telephone number | 010-58103678 |
| Opening hours              | 24h          |

## 2 Hazards identification

### 2.1 CLP classification according to Regulation ( EC ) No. 1272/2008 with amendment 2023/707

|                                                                   |             |
|-------------------------------------------------------------------|-------------|
| Carcinogenicity                                                   | Category 1A |
| Hazardous to the aquatic environment - long-term (chronic) hazard | Category 3  |

### 2.2 Label elements

|                   |                                                                                   |
|-------------------|-----------------------------------------------------------------------------------|
| Hazard pictograms |  |
| Signal word       | <b>Danger</b>                                                                     |

### Hazard statements

|      |                                                   |
|------|---------------------------------------------------|
| H350 | May cause cancer                                  |
| H412 | Harmful to aquatic life with long lasting effects |

### Precautionary statements

#### Prevention

|      |                                                                            |
|------|----------------------------------------------------------------------------|
| P201 | Obtain special instructions before use.                                    |
| P202 | Do not handle until all safety precautions have been read and understood.  |
| P273 | Avoid release to the environment.                                          |
| P280 | Wear protective gloves/protective clothing/eye protection/face protection. |

#### Response

|           |                                                        |
|-----------|--------------------------------------------------------|
| P308+P313 | IF exposed or concerned: Get medical advice/attention. |
|-----------|--------------------------------------------------------|

#### Storage

|      |                  |
|------|------------------|
| P405 | Store locked up. |
|------|------------------|

#### Disposal

|      |                                                                                                     |
|------|-----------------------------------------------------------------------------------------------------|
| P501 | Dispose of contents/container in accordance with local/regional/national/international regulations. |
|------|-----------------------------------------------------------------------------------------------------|

## 2.3 Other hazards

#### Results of PBT and vPvB assessment

| Component       | Results of PBT and vPvB assessment [according to (EC) No 1907/2006] |
|-----------------|---------------------------------------------------------------------|
| Water           | Insufficient information, temporarily unable to evaluate            |
| Sodium arsenite | Insufficient information, temporarily unable to evaluate            |

#### Results of endocrine disrupting properties assessment

| Component       | Results of endocrine disrupting properties assessment [according to (EU) No 2017/2100 or (EU) No 2018/605] |
|-----------------|------------------------------------------------------------------------------------------------------------|
| Water           | Insufficient information, temporarily unable to evaluate                                                   |
| Sodium arsenite | Insufficient information, temporarily unable to evaluate                                                   |

#### Other

|  |                 |
|--|-----------------|
|  | Not applicable. |
|--|-----------------|

## 3 Composition/information on ingredients

### 3.1 Substance

|  |                |
|--|----------------|
|  | Not applicable |
|--|----------------|

### 3.2 Mixture

| Component                                                                               | Weight % content(or range) | Classification according to Regulation ( EC ) No. 1272/2008 with amendment 2023/707 [CLP]                                                                                                                                                                                                              | Specific Conc. Limits, M-factors |
|-----------------------------------------------------------------------------------------|----------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------|
| <b>Water</b><br>CAS : 7732-18-5<br>EC : 231-791-2<br>Index No. : -                      | 99.5                       | Not Classified                                                                                                                                                                                                                                                                                         | -                                |
| <b>Sodium arsenite</b><br>CAS : 7784-46-5<br>EC : 232-070-5<br>Index No. : 033-005-00-1 | 0.5                        | Acute Toxicity - Oral, Category 3, H301;<br>Acute Toxicity - Inhalation, Category 3, H331; Carcinogenicity, Category 1A, H350; Hazardous to the aquatic environment - short-term (acute) hazard, Category 1, H400; Hazardous to the aquatic environment - long-term (chronic) hazard, Category 1, H410 | -                                |

## 4 First-aid measures

### 4.1 Description of first aid measures

|                                   |                                                                                                                                                                                                                                             |
|-----------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>General advice</b>             | Immediate medical attention is required. Show this safety data sheet (SDS) to the doctor in attendance.                                                                                                                                     |
| <b>Eye contact</b>                | Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician if feel uncomfortable.                                                                                                                                |
| <b>Skin contact</b>               | Take off contaminated clothing and shoes immediately. Wash off with plenty of soap and water for at least 15 minutes and consult a physician if feel uncomfortable.                                                                         |
| <b>Ingestion</b>                  | Never give anything by mouth to an unconscious person. Call a physician or Poison Control Center immediately.                                                                                                                               |
| <b>Inhalation</b>                 | Move victim into fresh air. If breathing is difficult, give oxygen. Do not use mouth to mouth resuscitation if victim ingested or inhaled the substance. If not breathing, give artificial respiration and consult a physician immediately. |
| <b>Protecting of first-aiders</b> | Ensure that medical personnel are aware of the substance involved. Take precautions to protect themselves and prevent spread of contamination.                                                                                              |

### 4.2 Most important symptoms/effects, acute and delayed

|   |                                                                                                                                        |
|---|----------------------------------------------------------------------------------------------------------------------------------------|
| 1 | Substance accumulation, in the human body, may occur and may cause some concern following repeated or long-term occupational exposure. |
|---|----------------------------------------------------------------------------------------------------------------------------------------|

### 4.3 Indication of any immediate medical attention and special treatment needed

|   |                          |
|---|--------------------------|
| 1 | Treat symptomatically.   |
| 2 | Symptoms may be delayed. |

## 5 Fire-fighting measures

### 5.1 Extinguishing media

|                                       |                                                                        |
|---------------------------------------|------------------------------------------------------------------------|
| <b>Suitable extinguishing media</b>   | Use extinguishing media suitable for surrounding area.                 |
| <b>Unsuitable extinguishing media</b> | There is no restriction on the type of extinguisher which may be used. |

### 5.2 Specific hazards arising from the substance or mixture

|   |                                                                                   |
|---|-----------------------------------------------------------------------------------|
| 1 | Development of hazardous combustion gases or vapor possible in the event of fire. |
| 2 | May expansion or decompose explosively when heated or involved in fire.           |

### 5.3 Advice for firefighters

|   |                                                                                                       |
|---|-------------------------------------------------------------------------------------------------------|
| 1 | As in any fire, wear self-contained breathing apparatus ( MSHA/NIOSH approved or equivalent) and full |
|---|-------------------------------------------------------------------------------------------------------|

|   |                                                                                               |
|---|-----------------------------------------------------------------------------------------------|
|   | protective gear.                                                                              |
| 2 | Fight fire from a safe distance, with adequate cover.                                         |
| 3 | Prevent fire extinguishing water from contaminating surface water or the ground water system. |

## 6 Accidental release measures

### 6.1 Personal precautions, protective equipment and emergency procedures

|   |                                                                                                                     |
|---|---------------------------------------------------------------------------------------------------------------------|
| 1 | Use personal protective equipment, do not breathe gas/mist/vapour/spray.                                            |
| 2 | Ensure adequate ventilation. Remove all sources of ignition. Take precautionary measures against static discharges. |
| 3 | Evacuate personnel to safe areas. Keep people away from and upwind of spill/leak.                                   |

### 6.2 Environmental precautions

|   |                                                       |
|---|-------------------------------------------------------|
| 1 | Prevent further leakage or spillage if safe to do so. |
| 2 | Discharge into the environment must be avoided.       |

### 6.3 Methods and materials for containment and cleaning up

|   |                                                                                                                             |
|---|-----------------------------------------------------------------------------------------------------------------------------|
| 1 | Cut off the source of the leak as much as possible.                                                                         |
| 2 | Keep leaks in a ventilated place.                                                                                           |
| 3 | Absorb spilled material in dry sand or inert absorbent. In case of large amount of spillage, contain a spill by bunding.    |
| 4 | Remove all sources of ignition. Use spark-proof tools and explosion-proof equipment.                                        |
| 5 | Contain spillage, and then collect with an electrically protected vacuum cleaner or by wet-brushing and place in container. |

### 6.4 Reference to other sections

|   |                                                                            |
|---|----------------------------------------------------------------------------|
| 1 | Personal Protective Equipment advice is contained in Section 8 of the SDS. |
| 2 | Disposal considerations advice is contained in Section 13 of the SDS.      |

## 7 Handling and storage

### 7.1 Precautions for safe handling

#### ◆ Protective measures

|   |                                                   |
|---|---------------------------------------------------|
| 1 | Handling is performed in a well ventilated place. |
| 2 | Wear suitable protective equipment.               |
| 3 | Avoid contact with skin and eyes.                 |

#### ◆ Measures to prevent fire

|   |                                                       |
|---|-------------------------------------------------------|
| 1 | Keep away from heat/sparks/open flames/ hot surfaces. |
|---|-------------------------------------------------------|

#### ◆ Measures to prevent aerosol and dust generation

|   |                 |
|---|-----------------|
| 1 | Not applicable. |
|---|-----------------|

#### ◆ Advice on general occupational hygiene

|   |                                                 |
|---|-------------------------------------------------|
| 1 | Wash hands and face after using the substances. |
| 2 | Replace the contaminated clothing immediately.  |

### 7.2 Conditions for safe storage, including any incompatibilities

|   |                                                           |
|---|-----------------------------------------------------------|
| 1 | Keep containers tightly closed.                           |
| 2 | Keep containers in a dry, cool and well-ventilated place. |

|   |                                                                  |
|---|------------------------------------------------------------------|
| 3 | Keep away from heat/sparks/open flames/hot surfaces.             |
| 4 | Store away from incompatible materials and foodstuff containers. |

### 7.3 Specific end use(s)

|   |                                                                                      |
|---|--------------------------------------------------------------------------------------|
| 1 | In addition to use mentioned in the Section 1.2, unforeseen other specific end uses. |
|---|--------------------------------------------------------------------------------------|

## 8 Exposure controls/personal protection

### 8.1 Control parameters

#### ◆ Occupational exposure limit values

| Component       | Country/Region                                              | Limit value - Eight hours |                                                                           | Limit value - Short term |                   |
|-----------------|-------------------------------------------------------------|---------------------------|---------------------------------------------------------------------------|--------------------------|-------------------|
|                 |                                                             | ppm                       | mg/m <sup>3</sup>                                                         | ppm                      | mg/m <sup>3</sup> |
| Sodium arsenite | Japan - JSOH(2024–2025)                                     | -                         | 0.003(as As, individual excess lifetime risk of cancer 10 <sup>-3</sup> ) | -                        | -                 |
|                 | Permissible exposure standards for workers in the workplace | -                         | 0.01(as As)                                                               | -                        | 0.03(as As)       |
|                 | Austria                                                     | -                         | 0.01                                                                      | -                        | 0.04              |
|                 | Finland                                                     | -                         | 0.01                                                                      | -                        | -                 |
|                 | USA - ACGIH                                                 | -                         | 0.01(as As)                                                               | -                        | -                 |

#### ◆ Biological limit values

| Component       | Standard   | Biological monitoring index                                         | Biological limits value | Sampling time                    | Remark |
|-----------------|------------|---------------------------------------------------------------------|-------------------------|----------------------------------|--------|
| Sodium arsenite | USA -ACGIH | Inorganic arsenic, plus methylated metabolites(Creatinine in urine) | 15µg/g As               | End of work week or end of shift |        |

#### ◆ Monitoring methods

|   |                                                                                                                                                   |
|---|---------------------------------------------------------------------------------------------------------------------------------------------------|
| 1 | EN 14042 Workplace atmospheres. Guide for the application and use of procedures for the assessment of exposure to chemical and biological agents. |
| 2 | GBZ/T 300 and GBZ/T 160 series standard Determination of toxic substances in workplace air.                                                       |

#### ◆ Derived No effect level (DNEL)

| Component       | Route of exposure | DNEL for Workers      |                          |                         |                            |
|-----------------|-------------------|-----------------------|--------------------------|-------------------------|----------------------------|
|                 |                   | Acute effects (local) | Acute effects (systemic) | Chronic effects (local) | Chronic effects (systemic) |
| Water           | Inhalation        | No data available     | No data available        | No data available       | No data available          |
|                 | Oral              | No data available     | No data available        | No data available       | No data available          |
|                 | Dermal            | No data available     | No data available        | No data available       | No data available          |
| Sodium arsenite | Inhalation        | No data available     | No data available        | No data available       | No data available          |
|                 | Oral              | No data available     | No data available        | No data available       | No data available          |

◆ Predicted No Effect Concentration (PNEC)

|                                          |                          |
|------------------------------------------|--------------------------|
| Predicted No Effect Concentration (PNEC) | No information available |
|------------------------------------------|--------------------------|

## 8.2 Exposure controls

### 8.2.1 Engineering controls

|   |                                                                                        |
|---|----------------------------------------------------------------------------------------|
| 1 | Ensure adequate ventilation, especially in confined areas.                             |
| 2 | Ensure that eyewash stations and safety showers are close to the workstation location. |
| 3 | Use explosion-proof electrical/ventilating/lighting/equipment.                         |
| 4 | Set up emergency exit and necessary risk-elimination area.                             |

### 8.2.2 Personal protection equipment

|                          |                                                                                                                                                                                                                                                                                                                                                                                                                                   |
|--------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| General requirement      |      |
| Eye protection           | Must wear appropriate safety goggles.                                                                                                                                                                                                                                                                                                                                                                                             |
| Hand protection          | Must wear appropriate chemical protective gloves.                                                                                                                                                                                                                                                                                                                                                                                 |
| Respiratory protection   | Must wear appropriate personal respiratory protective equipment.                                                                                                                                                                                                                                                                                                                                                                  |
| Skin and body protection | Must wear appropriate chemical protective clothing and chemical resistant shoes.                                                                                                                                                                                                                                                                                                                                                  |

### 8.2.3 Environmental exposure controls

|                                 |                          |
|---------------------------------|--------------------------|
| Environmental exposure controls | No information available |
|---------------------------------|--------------------------|

## 9 Physical and chemical properties

### 9.1 Information on basic physical and chemical properties

|                                             |                                                                                 |
|---------------------------------------------|---------------------------------------------------------------------------------|
| Physical state                              | clear or clear yellow liquid                                                    |
| Colour                                      | clear or clear yellow liquid                                                    |
| Odor                                        | No information available                                                        |
| Odor threshold                              | No information available                                                        |
| pH                                          | No information available                                                        |
| Melting point/freezing point(°C)            | 615 ( Sodium arsenite )                                                         |
| Initial boiling point and boiling range(°C) | Decompose before boiling ( Sodium arsenite )                                    |
| Flash point(Closed cup,°C)                  | No information available                                                        |
| Evaporation rate                            | No information available                                                        |
| Flammability                                | No information available                                                        |
| Upper/lower explosive                       | Upper limit : No information available ; Lower limit : No information available |

| limits[%(v/v)]                        |                                           |
|---------------------------------------|-------------------------------------------|
| Vapor pressure                        | No information available                  |
| Vapor density(Air = 1)                | No information available                  |
| Relative density(Water=1)             | 1.87 ( Sodium arsenite )                  |
| Solubility                            | Very soluble in water ( Sodium arsenite ) |
| n-octanol/water partition coefficient | No information available                  |
| Auto-ignition temperature(°C)         | No information available                  |
| Decomposition temperature(°C)         | No information available                  |
| Kinematic viscosity                   | No information available                  |
| Explosive properties                  | No information available                  |
| Oxidizing properties                  | No information available                  |
| Particle characteristics              | Not applicable                            |

## 9.2 Other information

### 9.2.1 Information with regard to physical hazard classes

|                                                    |                          |
|----------------------------------------------------|--------------------------|
| Information with regard to physical hazard classes | No information available |
|----------------------------------------------------|--------------------------|

### 9.2.2 Other safety characteristics

|                              |                          |
|------------------------------|--------------------------|
| Other safety characteristics | No information available |
|------------------------------|--------------------------|

## 10 Stability and reactivity

### Stability and reactivity

|                                         |                                                                                                                         |
|-----------------------------------------|-------------------------------------------------------------------------------------------------------------------------|
| 10.1 Reactivity                         | Contact with incompatible substances can cause decomposition or other chemical reactions.                               |
| 10.2 Chemical stability                 | Stable under proper operation and storage conditions.                                                                   |
| 10.3 Possibility of hazardous reactions | In contact with active metals (alkali metals, Na, Ca etc.) causes a reaction and release hydrogen.                      |
| 10.4 Conditions to avoid                | Incompatible materials, heat, flame and spark.                                                                          |
| 10.5 Incompatible materials             | Alkali, sodium, calcium, and other active metal, halogen, metal oxide, nonmetal oxide, acyl halide and metal phosphide. |
| 10.6 Hazardous decomposition products   | Under normal conditions of storage and use, hazardous decomposition products should not be produced.                    |

## 11 Toxicological information

### 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008 with amendment 2023/707

| Sodium arsenite solution      |                                                                  |
|-------------------------------|------------------------------------------------------------------|
| Skin corrosion/irritation     | Based on available data, the classification criteria are not met |
| Serious eye damage/irritation | Based on available data, the classification criteria are not met |
| Skin sensitization            | Based on available data, the classification criteria are not met |
| Respiratory sensitization     | Based on available data, the classification criteria are not met |
| Reproductive toxicity         | Based on available data, the classification criteria are not met |
| STOT-single exposure          | Based on available data, the classification criteria are not met |
| STOT-repeated exposure        | Based on available data, the classification criteria are not met |
| Aspiration hazard             | Based on available data, the classification criteria are not met |

**Germ cell mutagenicity**

Based on available data, the classification criteria are not met

**| Acute toxicity**

| Component       | LD <sub>50</sub> (oral) | LD <sub>50</sub> (dermal) | LC <sub>50</sub> (inhalation,4h) |
|-----------------|-------------------------|---------------------------|----------------------------------|
| Sodium arsenite | 10mg/kg(Rat)            | 150mg/kg(Rat)             | No information available         |

**| Carcinogenicity**

| Component       | List of carcinogens by the IARC Monographs | Report on Carcinogens by NTP |
|-----------------|--------------------------------------------|------------------------------|
| Water           | Not Listed                                 | Not Listed                   |
| Sodium arsenite | Category 1                                 | Category K                   |

**| 11.2 Information on other hazards****| 11.2.1 Endocrine disrupting properties**

| Component       | Endocrine disrupting properties |
|-----------------|---------------------------------|
| Water           | No information available        |
| Sodium arsenite | No information available        |

**| 11.2.2 Other Information****Other Information**

See Section 11.1

**12 Ecological information****| 12.1 Toxicity****| Acute aquatic toxicity**

| Component       | Fish                                  | Crustaceans                                    | Algae or other aquatic plants             |
|-----------------|---------------------------------------|------------------------------------------------|-------------------------------------------|
| Sodium arsenite | LC <sub>50</sub> : 16mg/L (96h)(Fish) | EC <sub>50</sub> : 2.68mg/L (48h)(Crustaceans) | ErC <sub>50</sub> : 31.2mg/L (96h)(Algae) |

**| Chronic aquatic toxicity****Chronic aquatic toxicity**

No information available

**| 12.2 Persistence and degradability****Persistence and degradability**

No information available

**| 12.3 Bioaccumulative potential****Bioaccumulative potential**

No information available

**| 12.4 Mobility in soil****Mobility in soil**

No information available

**| 12.5 Results of PBT and vPvB assessment**

| Component | Results of PBT and vPvB assessment [according to (EC) No 1907/2006] |
|-----------|---------------------------------------------------------------------|
| Water     | Insufficient information, temporarily unable to evaluate            |

|                 |                                                          |
|-----------------|----------------------------------------------------------|
| Sodium arsenite | Insufficient information, temporarily unable to evaluate |
|-----------------|----------------------------------------------------------|

## 12.6 Endocrine disrupting properties

| Component       | Endocrine disrupting properties |
|-----------------|---------------------------------|
| Water           | No information available        |
| Sodium arsenite | No information available        |

## 12.7 Other adverse effects

|  |                          |
|--|--------------------------|
|  | No information available |
|--|--------------------------|

## 13 Disposal considerations

### 13.1 Waste treatment methods

|                          |                                                                                                                                                        |
|--------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------|
| Waste chemicals          | Before disposal should refer to the relevant national and local laws and regulation. Recommend the use of incineration disposal.                       |
| Contaminated packaging   | Containers may still present chemical hazard when empty. Keep away from hot and ignition source of fire. Return to supplier for recycling if possible. |
| Disposal recommendations | Refer to section waste chemicals and contaminated packaging.                                                                                           |

## 14 Transport information

### Label and Mark

|                    |                |
|--------------------|----------------|
| Transporting Label | Not applicable |
|--------------------|----------------|

### IMDG-CODE

|           |                                                |
|-----------|------------------------------------------------|
| IMDG-CODE | NOT REGULATED FOR TRANSPORT OF DANGEROUS GOODS |
|-----------|------------------------------------------------|

### IATA-DGR

|          |                                                |
|----------|------------------------------------------------|
| IATA-DGR | NOT REGULATED FOR TRANSPORT OF DANGEROUS GOODS |
|----------|------------------------------------------------|

### UN-ADR

|        |                                                |
|--------|------------------------------------------------|
| UN-ADR | NOT REGULATED FOR TRANSPORT OF DANGEROUS GOODS |
|--------|------------------------------------------------|

### Special precautions for user

|  |                                                                                                                                                                                                                                                                                                                                                   |
|--|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|  | Transport vehicles should be equipped with the appropriate variety and quantity of fire equipment and emergency equipment leakage during transport. Before transport, should be preceded by checking whether container integrity, sealing. The transport unit must be placarded and marked in accordance with relevant transporting requirements. |
|--|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

### Maritime transport in bulk according to IMO instruments

- ◆ Transport in bulk according to Annex II of MARPOL and the IBC code

|  |               |
|--|---------------|
|  | Not Available |
|--|---------------|

- ◆ Transport in bulk in accordance with MARPOL Annex V and the IMSBC Code

|  |               |
|--|---------------|
|  | Not Available |
|--|---------------|

- ◆ Transport in bulk in accordance with the IGC Code

|  |               |
|--|---------------|
|  | Not Available |
|--|---------------|

## 15 Regulatory information

## 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

### International chemical inventory

| Component       | A | B | C | D | E | F | G | H | I | J | K | L | M |
|-----------------|---|---|---|---|---|---|---|---|---|---|---|---|---|
| Water           | ✓ | ✓ | ✓ | ✓ | ✓ | ✓ | ✓ | ✓ | ✓ | ✓ | ✓ | ✓ | ✓ |
| Sodium arsenite | ✓ | ✓ | ✓ | ✓ | ✓ | ✓ | ✓ | ✓ | × | × | ✓ | ✓ | ✓ |

- [A] China Inventory of Existing Chemical Substances(IECSC)  
 [B] European Inventory of Existing Commercial Chemical Substances(EC inventory)  
 [C] United States Toxic Substances Control Act Inventory(TSCA)  
 [D] Canadian Domestic Substances List(DSL)  
 [E] New Zealand Inventory of Chemicals(NZIoC)  
 [F] Philippines Inventory of Chemicals and Chemical Substances(PICCS)  
 [G] Korea Existing Chemicals Inventory(KECL)  
 [H] Australian Inventory of Industrial Chemical (AIICS)  
 [I] Japan Inventory of Existing & New Chemical Substances(ENCS)  
 [J] Thailand Existing Chemicals Inventory(TECI)  
 [K] Mexico National Inventory of Chemical Substances (INSQ)  
 [L] Russia Inventory of Existing Substances(DRAFT)  
 [M] Inventory of Existing Chemical Substances in Taiwan, China (TCSI)

### List of Chemical Substances under International Conventions

| Component       | A | B | C |
|-----------------|---|---|---|
| Water           | × | × | × |
| Sodium arsenite | × | × | × |

- [A] The Montreal Protocol on Substances that Deplete the Ozone Layer  
 [B] Stockholm Convention on Persistent Organic Pollutants (POPs)  
 [C] Rotterdam Convention on the prior informed consent procedure for certain hazardous chemicals and pesticides in international trade

### European chemical inventory

| Component       | A | B | C | D | E | F | G | H | I |
|-----------------|---|---|---|---|---|---|---|---|---|
| Water           | × | × | × | ✓ | × | × | × | × | × |
| Sodium arsenite | × | × | ✓ | ✓ | × | × | × | × | × |

- [A] Candidate list of Substances of Very High Concern for authorization under EU REACH regulation  
 [B] Substances requiring authorisation under EU REACH regulation  
 [C] Substances restricted under EU REACH  
 [D] Pre-registered substances under EU REACH  
 [E] Registered substances under EU REACH  
 [F] Substance Evaluation – CoRAP under EU REACH  
 [G] List of priority substances under EU water policy ( Directive 2455/2001/EC )  
 [H] Substances subject to POPs Regulation  
 [I] Substances proposed as POPs

Note:

“✓” Indicates that the substance included in the regulations.

“×” No data or not included in the regulations.

### German water hazard class(WGK)

| Component       | WGK   | Remark |
|-----------------|-------|--------|
| Sodium arsenite | WGK 3 |        |

|         |                               |
|---------|-------------------------------|
| 【WGK 1】 | slightly hazardous to water   |
| 【WGK 2】 | obviously hazardous to water  |
| 【WGK 3】 | highly hazardous to water     |
| 【nwg】   | non-hazardous to water        |
| 【awg】   | hazardous to water in general |

### German technical instructions on air quality control(TA LUFT)

| Component       | TA LUFT                                                                                                                                                                                                                                  | Remark |
|-----------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------|
| Sodium arsenite | Chapter 5.2.7.1.1 Carcinogenic substances. Class I. As minimum requirement, the following values are in all not allowed to be exceeded in the exhaust gas: Mass flow: 0,15 g/hr or Mass conc.: 0,05 mg/m <sup>3</sup> . Specified as As. |        |

### German technical rules for hazardous substances(TRGS)

| Component       | TRGS                                                                                      | Remark |
|-----------------|-------------------------------------------------------------------------------------------|--------|
| Water           | TRGS 500 TRGS 509 TRGS 510                                                                |        |
| Sodium arsenite | TRGS 201 TRGS 400 TRGS 555 TRGS 600 TRGS 401 TRGS 410 TRGS 500 TRGS 509 TRGS 510 TRGS 560 |        |

### 15.2 Chemical safety assessment

|  |                                                                                                |
|--|------------------------------------------------------------------------------------------------|
|  | No Chemical Safety Assessment has been carried out for this substance/mixture by the supplier. |
|--|------------------------------------------------------------------------------------------------|

## 16 Other information

### Information on revision

|                     |            |
|---------------------|------------|
| Creation Date       | 2026/01/07 |
| Revision Date       | -          |
| Reason for revision | -          |
