

## Safety Data Sheet

# Fe<sub>2</sub>O<sub>3</sub> standard solution

Version : V2.0.0.1

Report No. : BWZ6727-2016-MSDS-EP

Creation Date : 2026/01/29

Revision Date : -

\*Prepared in accordance with EU REACH Regulation (REACH 1907/2006 with amendment 2020/878)

## 1 Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

|                           |                                                  |
|---------------------------|--------------------------------------------------|
| Product Name              | Fe <sub>2</sub> O <sub>3</sub> standard solution |
| Cat No.                   | BWZ6727-2016                                     |
| CAS No.                   | Not applicable                                   |
| EC No.                    | Not applicable                                   |
| Molecular Formula         | Not applicable                                   |
| REACH Registration Number | -                                                |
| UFI                       | No information available                         |

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

|                          |                              |
|--------------------------|------------------------------|
| Relevant identified uses | Please consult manufacturer. |
| Uses advised against     | Please consult manufacturer. |

### 1.3 Details of the supplier of the Safety Data Sheet

|                        |                                                                                                      |
|------------------------|------------------------------------------------------------------------------------------------------|
| Name of the company    | Weiyel Inc                                                                                           |
| Address of the company | Hedian Light Industrial Park, Chengguan Town, Shangcheng County, Xinyang City, Henan Province, China |
| Post code              | 465350                                                                                               |
| Telephone number       | 010-58103678                                                                                         |
| Fax number             | 010-84840368                                                                                         |
| E-mail address         | info@weiyel.com                                                                                      |

### 1.4 Emergency telephone number

|                            |              |
|----------------------------|--------------|
| Emergency telephone number | 010-58103678 |
| Opening hours              | 24h          |

## 2 Hazards identification

### 2.1 CLP classification according to Regulation ( EC ) No. 1272/2008 with amendment 2023/707

|                               |            |
|-------------------------------|------------|
| Skin corrosion/irritation     | Category 1 |
| Serious eye damage/irritation | Category 1 |

### 2.2 Label elements

|                   |                                                                                   |
|-------------------|-----------------------------------------------------------------------------------|
| Hazard pictograms |  |
| Signal word       | <b>Danger</b>                                                                     |

### Hazard statements

|      |                                         |
|------|-----------------------------------------|
| H314 | Causes severe skin burns and eye damage |
| H318 | Causes serious eye damage               |

### Precautionary statements

#### ◆ Prevention

|      |                                                                                |
|------|--------------------------------------------------------------------------------|
| P260 | Do not breathe gas/mist/vapour/spray.                                          |
| P264 | Wash hands and other parts of the body (if related) thoroughly after handling. |
| P280 | Wear protective gloves/protective clothing/eye protection/face protection.     |

#### ◆ Response

|                |                                                                                                                                  |
|----------------|----------------------------------------------------------------------------------------------------------------------------------|
| P310           | Immediately call a POISON CENTER/doctor.                                                                                         |
| P321           | Specific treatment (see related instructions on the label).                                                                      |
| P363           | Wash contaminated clothing before reuse.                                                                                         |
| P304+P340      | IF INHALED: Remove person to fresh air and keep comfortable for breathing.                                                       |
| P301+P330+P331 | IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.                                                                               |
| P303+P361+P353 | IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse affected areas with water [or shower].               |
| P305+P351+P338 | IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. |

#### ◆ Storage

|      |                  |
|------|------------------|
| P405 | Store locked up. |
|------|------------------|

#### ◆ Disposal

|      |                                                                                                     |
|------|-----------------------------------------------------------------------------------------------------|
| P501 | Dispose of contents/container in accordance with local/regional/national/international regulations. |
|------|-----------------------------------------------------------------------------------------------------|

### 2.3 Other hazards

#### ◆ Results of PBT and vPvB assessment

| Component         | Results of PBT and vPvB assessment [according to (EC) No 1907/2006] |
|-------------------|---------------------------------------------------------------------|
| Diiron trioxide   | Not applicable                                                      |
| Hydrogen chloride | Not PBT/vPvB                                                        |
| Water             | Insufficient information, temporarily unable to evaluate            |

#### ◆ Results of endocrine disrupting properties assessment

| Component         | Results of endocrine disrupting properties assessment [according to (EU) No 2017/2100 or (EU) No 2018/605] |
|-------------------|------------------------------------------------------------------------------------------------------------|
| Diiron trioxide   | Insufficient information, temporarily unable to evaluate                                                   |
| Hydrogen chloride | Insufficient information, temporarily unable to evaluate                                                   |
| Water             | Insufficient information, temporarily unable to evaluate                                                   |

## ◆ Other

Not applicable.

**3 Composition/information on ingredients****3.1 Substance**

Not applicable

**3.2 Mixture**

| Component                                                                                 | Weight % content(or range) | Classification according to Regulation ( EC ) No. 1272/2008 with amendment 2023/707 [CLP]                                                      | Specific Conc. Limits, M-factors                     |

**4 First-aid measures****4.1 Description of first aid measures**

|                                   |                                                                                                                                                                                                                                             |
|-----------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>General advice</b>             | Immediate medical attention is required. Show this safety data sheet (SDS) to the doctor in attendance.                                                                                                                                     |
| <b>Eye contact</b>                | Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician if feel uncomfortable.                                                                                                                                |
| <b>Skin contact</b>               | Take off contaminated clothing and shoes immediately. Wash off with plenty of soap and water for at least 15 minutes and consult a physician if feel uncomfortable.                                                                         |
| <b>Ingestion</b>                  | Never give anything by mouth to an unconscious person. Call a physician or Poison Control Center immediately.                                                                                                                               |
| <b>Inhalation</b>                 | Move victim into fresh air. If breathing is difficult, give oxygen. Do not use mouth to mouth resuscitation if victim ingested or inhaled the substance. If not breathing, give artificial respiration and consult a physician immediately. |
| <b>Protecting of first-aiders</b> | Ensure that medical personnel are aware of the substance involved. Take precautions to protect themselves and prevent spread of contamination.                                                                                              |

**4.2 Most important symptoms/effects, acute and delayed**

|   |                                                                                                                                        |
|---|----------------------------------------------------------------------------------------------------------------------------------------|
| 1 | Substance accumulation, in the human body, may occur and may cause some concern following repeated or long-term occupational exposure. |
|---|----------------------------------------------------------------------------------------------------------------------------------------|

**4.3 Indication of any immediate medical attention and special treatment needed**

|   |                          |
|---|--------------------------|
| 1 | Treat symptomatically.   |
| 2 | Symptoms may be delayed. |

**5 Fire-fighting measures****5.1 Extinguishing media**

|                                       |                                                                                                                                                                                                                                                                                                                                                                                                                    |
|---------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Suitable extinguishing media</b>   | Small fire: dry chemical, CO <sub>2</sub> or water spray; Large fire: dry chemical, CO <sub>2</sub> , alcohol-resistant foam or water spray; Fire involving tanks, rail tank cars or highway tanks: Fight fire from maximum distance or use unmanned master stream devices or monitor nozzles. Cool containers with flooding quantities of water until well after fire is out. Do not get water inside containers. |
| <b>Unsuitable extinguishing media</b> | No information available.                                                                                                                                                                                                                                                                                                                                                                                          |

## 5.2 Specific hazards arising from the substance or mixture

|   |                                                                                   |
|---|-----------------------------------------------------------------------------------|
| 1 | Fire may produce irritating, poisonous or corrosive gases.                        |
| 2 | Development of hazardous combustion gases or vapor possible in the event of fire. |
| 3 | May expansion or decompose explosively when heated or involved in fire.           |

## 5.3 Advice for firefighters

|   |                                                                                                                       |
|---|-----------------------------------------------------------------------------------------------------------------------|
| 1 | As in any fire, wear self-contained breathing apparatus (MSHA/NIOSH approved or equivalent) and full protective gear. |
| 2 | Fight fire from a safe distance, with adequate cover.                                                                 |
| 3 | Prevent fire extinguishing water from contaminating surface water or the ground water system.                         |

# 6 Accidental release measures

## 6.1 Personal precautions, protective equipment and emergency procedures

|   |                                                                                                                     |
|---|---------------------------------------------------------------------------------------------------------------------|
| 1 | Fully encapsulating, vapor protective clothing should be worn for spills and leaks with no fire.                    |
| 2 | Do not touch or walk through spilled material.                                                                      |
| 3 | Do not touch damaged containers or spilled material unless wearing appropriate protective clothing.                 |
| 4 | Use personal protective equipment, do not breathe gas/mist/vapour/spray.                                            |
| 5 | Ensure adequate ventilation. Remove all sources of ignition. Take precautionary measures against static discharges. |
| 6 | Evacuate personnel to safe areas. Keep people away from and upwind of spill/leak.                                   |

## 6.2 Environmental precautions

|   |                                                       |
|---|-------------------------------------------------------|
| 1 | Prevent further leakage or spillage if safe to do so. |
| 2 | Discharge into the environment must be avoided.       |

## 6.3 Methods and materials for containment and cleaning up

|   |                                                                                                                                               |
|---|-----------------------------------------------------------------------------------------------------------------------------------------------|
| 1 | Do not touch or cross spills.                                                                                                                 |
| 2 | It is recommended that emergency personnel wear a self-contained breathing apparatus with positive pressure and wear anti-corrosion clothing. |
| 3 | Transfer to a tank truck or special collector with a corrosion-resistant pump.                                                                |
| 4 | Do not touch broken containers and spills before putting on appropriate protective clothing.                                                  |
| 5 | Cut off the source of the leak as much as possible.                                                                                           |
| 6 | Keep leaks in a ventilated place.                                                                                                             |
| 7 | Absorb spilled material in dry sand or inert absorbent. In case of large amount of spillage, contain a spill by bunding.                      |
| 8 | Adhered or collected material should be promptly disposed of, in accordance with appropriate laws and regulations.                            |
| 9 | Contain spillage, and then collect with an electrically protected vacuum cleaner or by wet-brushing and place in container.                   |

## 6.4 Reference to other sections

|   |                                                                            |
|---|----------------------------------------------------------------------------|
| 1 | Personal Protective Equipment advice is contained in Section 8 of the SDS. |
|---|----------------------------------------------------------------------------|

|   |                                                                       |
|---|-----------------------------------------------------------------------|
| 2 | Disposal considerations advice is contained in Section 13 of the SDS. |
|---|-----------------------------------------------------------------------|

## 7 Handling and storage

### 7.1 Precautions for safe handling

#### ◆ Protective measures

- |   |                                                   |
|---|---------------------------------------------------|
| 1 | Handling is performed in a well ventilated place. |
| 2 | Wear suitable protective equipment.               |
| 3 | Avoid contact with skin and eyes.                 |

#### ◆ Measures to prevent fire

- |   |                                                       |
|---|-------------------------------------------------------|
| 1 | Keep away from heat/sparks/open flames/ hot surfaces. |
|---|-------------------------------------------------------|

#### ◆ Measures to prevent aerosol and dust generation

- |   |                 |
|---|-----------------|
| 1 | Not applicable. |
|---|-----------------|

#### ◆ Advice on general occupational hygiene

- |   |                                                 |
|---|-------------------------------------------------|
| 1 | Wash hands and face after using the substances. |
| 2 | Replace the contaminated clothing immediately.  |

### 7.2 Conditions for safe storage, including any incompatibilities

- |   |                                                                  |
|---|------------------------------------------------------------------|
| 1 | Keep containers tightly closed.                                  |
| 2 | Keep containers in a dry, cool and well-ventilated place.        |
| 3 | Keep away from heat/sparks/open flames/hot surfaces.             |
| 4 | Store away from incompatible materials and foodstuff containers. |

### 7.3 Specific end use(s)

- |   |                                                                                      |
|---|--------------------------------------------------------------------------------------|
| 1 | In addition to use mentioned in the Section 1.2, unforeseen other specific end uses. |
|---|--------------------------------------------------------------------------------------|

## 8 Exposure controls/personal protection

### 8.1 Control parameters

#### ◆ Occupational exposure limit values

| Component                | Country/Region                                              | Limit value - Eight hours |                      | Limit value - Short term |                   |
|--------------------------|-------------------------------------------------------------|---------------------------|----------------------|--------------------------|-------------------|
|                          |                                                             | ppm                       | mg/m <sup>3</sup>    | ppm                      | mg/m <sup>3</sup> |
| <b>Diiron trioxide</b>   | Permissible exposure standards for workers in the workplace | -                         | 10(fume)             | -                        | 15(fume)          |
|                          | France                                                      | -                         | 5(inhalable aerosol) | -                        | -                 |
|                          | United Kingdom                                              | -                         | 5                    | -                        | 10                |
|                          | Belgium                                                     | 2                         | 5                    | -                        | -                 |
|                          | Denmark                                                     | -                         | 3.5(total dust)      | -                        | 7(total dust)     |
|                          | Finland                                                     | -                         | 5                    | -                        | -                 |
| <b>Hydrogen chloride</b> | Japan - JSOH(2024-2025)                                     | -                         | -                    | -                        | -                 |

|  |                                                             |   |   |    |     |
|--|-------------------------------------------------------------|---|---|----|-----|
|  | Permissible exposure standards for workers in the workplace | - | - | -  | -   |
|  | European Union                                              | 5 | 8 | 10 | 15  |
|  | France                                                      | - | - | 5  | 7.6 |
|  | Germany (AGS)                                               | 2 | 3 | 4  | 6   |
|  | Germany (DFG)                                               | 2 | 3 | 4  | 6   |

◆ Biological limit values

|                                |                         |
|--------------------------------|-------------------------|
| <b>Biological limit values</b> | No relevant regulations |
|--------------------------------|-------------------------|

◆ Monitoring methods

|   |                                                                                                                                                   |
|---|---------------------------------------------------------------------------------------------------------------------------------------------------|
| 1 | EN 14042 Workplace atmospheres. Guide for the application and use of procedures for the assessment of exposure to chemical and biological agents. |
| 2 | GBZ/T 300 and GBZ/T 160 series standard Determination of toxic substances in workplace air.                                                       |

◆ Derived No effect level (DNEL)

| Component                | Route of exposure | DNEL for Workers      |                          |                         |                            |
|--------------------------|-------------------|-----------------------|--------------------------|-------------------------|----------------------------|
|                          |                   | Acute effects (local) | Acute effects (systemic) | Chronic effects (local) | Chronic effects (systemic) |
| <b>Diiron trioxide</b>   | Inhalation        | No data available     | No data available        | No data available       | No data available          |
|                          | Oral              | No data available     | No data available        | No data available       | No data available          |
|                          | Dermal            | No data available     | No data available        | No data available       | No data available          |
| <b>Hydrogen chloride</b> | Inhalation        | No data available     | No data available        | 8 mg/m <sup>3</sup>     | No data available          |
|                          | Oral              | No data available     | No data available        | No data available       | No data available          |
|                          | Dermal            | No data available     | No data available        | No data available       | No data available          |
| <b>Water</b>             | Inhalation        | No data available     | No data available        | No data available       | No data available          |
|                          | Oral              | No data available     | No data available        | No data available       | No data available          |
|                          | Dermal            | No data available     | No data available        | No data available       | No data available          |

◆ Predicted No Effect Concentration (PNEC)

| Component                | A                    | B                    | C                    | D                    | E                    | F                    | G                    | H                                |
|--------------------------|----------------------|----------------------|----------------------|----------------------|----------------------|----------------------|----------------------|----------------------------------|
| <b>Diiron trioxide</b>   | No hazard identified | No hazard identified | No hazard identified | No hazard identified | No hazard identified | No hazard identified | No hazard identified | No potential for bioaccumulation |
| <b>Hydrogen chloride</b> | No hazard identified | No hazard identified | No hazard identified | No hazard identified | No hazard identified | No hazard identified | No data available    | No potential for bioaccumulation |

**Note 1:**

A: Freshwater; B: Seawater; C: Sewage treatment plant; D: Sediment (freshwater); E: Sediment (seawater); F: Air; G: Soil; H: Secondary poisoning(Hazard for Predators).

**Note 2:**

The PNEC values of the remaining components not shown in the product are not available yet.

## 8.2 Exposure controls

### 8.2.1 Engineering controls

|   |                                                                                        |
|---|----------------------------------------------------------------------------------------|
| 1 | Ensure adequate ventilation, especially in confined areas.                             |
| 2 | Ensure that eyewash stations and safety showers are close to the workstation location. |
| 3 | Use explosion-proof electrical/ventilating/lighting/equipment.                         |
| 4 | Set up emergency exit and necessary risk-elimination area.                             |

### 8.2.2 Personal protection equipment

| General requirement      |      |
|--------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Eye protection           | Must wear appropriate anti-corrosion goggles.                                                                                                                                                                                                                                                                                                                                                                                |
| Hand protection          | Must wear acid and alkali resistant chemical protective gloves.                                                                                                                                                                                                                                                                                                                                                              |
| Respiratory protection   | Must wear appropriate personal respiratory protective equipment.                                                                                                                                                                                                                                                                                                                                                             |
| Skin and body protection | Must wear acid and alkali resistant chemical protective clothing.                                                                                                                                                                                                                                                                                                                                                            |

### 8.2.3 Environmental exposure controls

|                                 |                          |
|---------------------------------|--------------------------|
| Environmental exposure controls | No information available |
|---------------------------------|--------------------------|

## 9 Physical and chemical properties

### 9.1 Information on basic physical and chemical properties

|                                             |                                                                                 |
|---------------------------------------------|---------------------------------------------------------------------------------|
| Physical state                              | Orange-yellow to reddish-brown transparent liquid                               |
| Colour                                      | Orange-yellow to reddish-brown transparent liquid                               |
| Odor                                        | No special odor                                                                 |
| Odor threshold                              | No information available                                                        |
| pH                                          | <=2 (Strong acid)                                                               |
| Melting point/freezing point(°C)            | No information available                                                        |
| Initial boiling point and boiling range(°C) | >35                                                                             |
| Flash point(Closed cup,°C)                  | No information available                                                        |
| Evaporation rate                            | No information available                                                        |
| Flammability                                | Not flammable                                                                   |
| Upper/lower explosive limits[% (v/v)]       | Upper limit : No information available ; Lower limit : No information available |
| Vapor pressure                              | No information available                                                        |
| Vapor density(Air = 1)                      | No information available                                                        |
| Relative density(Water=1)                   | 略高于水 (约 1.02-1.05 g/cm <sup>3</sup> , 因盐酸溶液密度增加)                                |
| Solubility                                  | 完全溶于 2.5%盐酸, 形成均一溶液。                                                            |
| n-octanol/water partition coefficient       | No information available                                                        |
| Auto-ignition temperature(°C)               | No information available                                                        |
| Decomposition temperature(°C)               | No information available                                                        |
| Kinematic viscosity                         | No information available                                                        |
| Explosive properties                        | No information available                                                        |

## 9.2 Other information

### 9.2.1 Information with regard to physical hazard classes

|                                                           |                          |
|-----------------------------------------------------------|--------------------------|
| <b>Information with regard to physical hazard classes</b> | No information available |
|-----------------------------------------------------------|--------------------------|

### 9.2.2 Other safety characteristics

|                                     |                          |
|-------------------------------------|--------------------------|
| <b>Other safety characteristics</b> | No information available |
|-------------------------------------|--------------------------|

## 10 Stability and reactivity

### Stability and reactivity

|                                                |                                                                                                                                                                                                                                                                                                                                                                                                 |
|------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>10.1 Reactivity</b>                         | Contact with incompatible substances can cause decomposition or other chemical reactions.                                                                                                                                                                                                                                                                                                       |
| <b>10.2 Chemical stability</b>                 | Stable under proper operation and storage conditions.                                                                                                                                                                                                                                                                                                                                           |
| <b>10.3 Possibility of hazardous reactions</b> | Reacts with active metals and poses an explosive potential or fire. In contact with magnesium, sodium, potassium, copper and other metals or metal acetylene may cause a fire or explosion. In contact with active metals (alkali metals, Na, Ca etc.) causes a reaction and release hydrogen.                                                                                                  |
| <b>10.4 Conditions to avoid</b>                | Incompatible materials, heat, flame and spark.                                                                                                                                                                                                                                                                                                                                                  |
| <b>10.5 Incompatible materials</b>             | Active metal, alcohols, aldehydes, carbon disulfide, carbon, sulfur, phosphorus, boron, reducing agents, metallic acetylenes and metallic carbonates. Magnesium, sodium, potassium, copper, oxidants, acetylene metal compounds, alcohols, alkanes, hydrogen and water. Alkali, sodium, calcium, and other active metal, halogen, metal oxide, nonmetal oxide, acyl halide and metal phosphide. |
| <b>10.6 Hazardous decomposition products</b>   | Under normal conditions of storage and use, hazardous decomposition products should not be produced.                                                                                                                                                                                                                                                                                            |

## 11 Toxicological information

### 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008 with amendment 2023/707

| Fe2O3 standard solution              |                                                                  |
|--------------------------------------|------------------------------------------------------------------|
| <b>Skin corrosion/irritation</b>     | Causes severe skin burns and eye damage(Category 1)              |
| <b>Serious eye damage/irritation</b> | Causes serious eye damage(Category 1)                            |
| <b>Skin sensitization</b>            | Based on available data, the classification criteria are not met |
| <b>Respiratory sensitization</b>     | Based on available data, the classification criteria are not met |
| <b>Reproductive toxicity</b>         | Based on available data, the classification criteria are not met |
| <b>STOT-single exposure</b>          | Based on available data, the classification criteria are not met |
| <b>STOT-repeated exposure</b>        | Based on available data, the classification criteria are not met |
| <b>Aspiration hazard</b>             | Based on available data, the classification criteria are not met |
| <b>Germ cell mutagenicity</b>        | Based on available data, the classification criteria are not met |

### Acute toxicity

| Component         | LD <sub>50</sub> (oral) | LD <sub>50</sub> (dermal) | LC <sub>50</sub> (inhalation,4h) |
|-------------------|-------------------------|---------------------------|----------------------------------|
| Hydrogen chloride | 900mg/kg(Rabbit)        | No information available  | No information available         |

### Carcinogenicity

| Component         | List of carcinogens by the IARC Monographs | Report on Carcinogens by NTP |
|-------------------|--------------------------------------------|------------------------------|
| Diiron trioxide   | Category 3                                 | Not Listed                   |
| Hydrogen chloride | Category 3                                 | Not Listed                   |
| Water             | Not Listed                                 | Not Listed                   |

## 11.2 Information on other hazards

### 11.2.1 Endocrine disrupting properties

| Component         | Endocrine disrupting properties |
|-------------------|---------------------------------|
| Diiron trioxide   | No information available        |
| Hydrogen chloride | No information available        |
| Water             | No information available        |

### 11.2.2 Other Information

|                   |                  |
|-------------------|------------------|
| Other Information | See Section 11.1 |
|-------------------|------------------|

## 12 Ecological information

### 12.1 Toxicity

#### Acute aquatic toxicity

| Component         | Fish                                    | Crustaceans                                     | Algae or other aquatic plants             |
|-------------------|-----------------------------------------|-------------------------------------------------|-------------------------------------------|
| Diiron trioxide   | No information available                | EC <sub>50</sub> : > 100mg/L (48h)(Crustaceans) | ErC <sub>50</sub> : > 20mg/L (72h)(Algae) |
| Hydrogen chloride | LC <sub>50</sub> : 20.5mg/L (96h)(Fish) | No information available                        | No information available                  |

#### Chronic aquatic toxicity

|                          |                          |
|--------------------------|--------------------------|
| Chronic aquatic toxicity | No information available |
|--------------------------|--------------------------|

### 12.2 Persistence and degradability

| Component       | Persistence (water/soil) | Persistence (air) |
|-----------------|--------------------------|-------------------|
| Diiron trioxide | Low                      | Low               |

### 12.3 Bioaccumulative potential

| Component       | Bioaccumulative potential | Comments       |
|-----------------|---------------------------|----------------|
| Diiron trioxide | Low                       | Log Kow=0.5294 |

### 12.4 Mobility in soil

| Component       | log Koc | Remark |
|-----------------|---------|--------|
| Diiron trioxide | 1.375   |        |

### 12.5 Results of PBT and vPvB assessment

| Component         | Results of PBT and vPvB assessment [according to (EC) No 1907/2006] |
|-------------------|---------------------------------------------------------------------|
| Diiron trioxide   | Not applicable                                                      |
| Hydrogen chloride | Not PBT/vPvB                                                        |
| Water             | Insufficient information, temporarily unable to evaluate            |

## 12.6 Endocrine disrupting properties

| Component         | Endocrine disrupting properties |
|-------------------|---------------------------------|
| Diiron trioxide   | No information available        |
| Hydrogen chloride | No information available        |
| Water             | No information available        |

## 12.7 Other adverse effects

|  |                          |
|--|--------------------------|
|  | No information available |
|--|--------------------------|

## 13 Disposal considerations

### 13.1 Waste treatment methods

|                          |                                                                                                                                                        |
|--------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------|
| Waste chemicals          | Before disposal should refer to the relevant national and local laws and regulation. Recommend the use of incineration disposal.                       |
| Contaminated packaging   | Containers may still present chemical hazard when empty. Keep away from hot and ignition source of fire. Return to supplier for recycling if possible. |
| Disposal recommendations | Refer to section waste chemicals and contaminated packaging.                                                                                           |

## 14 Transport information

### Label and Mark

|                    |                                                                                     |
|--------------------|-------------------------------------------------------------------------------------|
| Transporting Label |  |
|--------------------|-------------------------------------------------------------------------------------|

### IMDG-CODE

|                                        |                                             |
|----------------------------------------|---------------------------------------------|
| 14.1 UN number                         | 3264                                        |
| 14.2 UN proper shipping name           | CORROSIVE LIQUID, ACIDIC, INORGANIC, N.O.S. |
| 14.3 Transport hazard class            | 8                                           |
| 14.4 Packing group                     | III                                         |
| 14.5 Environmental hazards (Yes or no) | No                                          |

### IATA-DGR

|                                        |                                             |
|----------------------------------------|---------------------------------------------|
| 14.1 UN number                         | 3264                                        |
| 14.2 UN proper shipping name           | CORROSIVE LIQUID, ACIDIC, INORGANIC, N.O.S. |
| 14.3 Transport hazard class            | 8                                           |
| 14.4 Packing group                     | III                                         |
| 14.5 Environmental hazards (Yes or no) | No                                          |

**UN-ADR**

|                                                   |                                             |
|---------------------------------------------------|---------------------------------------------|
| <b>14.1 UN number</b>                             | 3264                                        |

**[I]** Substances proposed as POPs

Note:

- “✓” Indicates that the substance included in the regulations.  
 “×” No data or not included in the regulations.

### German water hazard class(WGK)

| Component                | WGK   | Remark                                                                                                                                                                        |
|--------------------------|-------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Diiron trioxide</b>   | nwg   |                                                                                                                                                                               |
| <b>Hydrogen chloride</b> | WGK 1 | The regular and professional use of this substance for drinking water treatment, surface water remediation or waste water treatment is not restricted by this classification. |

- [WGK 1]** slightly hazardous to water  
**[WGK 2]** obviously hazardous to water  
**[WGK 3]** highly hazardous to water  
**[nwg]** non-hazardous to water  
**[awg]** hazardous to water in general

### German technical instructions on air quality control(TA LUFT)

| Component              | TA LUFT                                                                                                                                                                                                                                                                                                                                                                                                                           | Remark |
|------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------|
| <b>Diiron trioxide</b> | Chapter 5.2.1 Overall Dust, including fine dust. The emissions of dust in the exhaust gas are not allowed to exceed the following values: Mass flow: 0,20 kg/hr or Mass conc.: 20 mg/m <sup>3</sup> The mass per unit volume of 0,15 g/m <sup>3</sup> in exhaust gas is not allowed to be exceeded also on observance or lower deviation of a mass flow of 0,20 kg/h. For emission sources that exceed the mass flow rate of 0.40 |        |

|                          |                                                                                                                                                                                                                             |  |
|--------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|
|                          | kg/h, the mass concentration in waste gas the mass concentration must not exceed 10 mg/m <sup>3</sup> .                                                                                                                     |  |
| <b>Hydrogen chloride</b> | Chapter 5.2.4 Gaseous inorganic substances. Class III. Following values are not allowed to be exceeded in the. exhaust gas<br>Mass flow: 0,15 kg/hr or<br>Mass conc.: 30 mg/m <sup>3</sup> . Specified as hydrogen chlorid. |  |

### German technical rules for hazardous substances(TRGS)

| Component                | TRGS                                                                                                                   | Remark |
|--------------------------|------------------------------------------------------------------------------------------------------------------------|--------|
| <b>Diiron trioxide</b>   | TRGS 500 TRGS 509 TRGS 510                                                                                             |        |
