

## Safety Data Sheet

# 6 Mix Anions Solution

Version : V2.0.0.1

Report No. : BWZ6849-2016-MSDS-EP

Creation Date : 2026/01/23

Revision Date : -

\*Prepared in accordance with EU REACH Regulation (REACH 1907/2006 with amendment 2020/878)

## 1 Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

|                           |                          |
|---------------------------|--------------------------|
| Product Name              | 6 Mix Anions Solution    |
| Cat No.                   | BWZ6849-2016             |
| CAS No.                   | Not applicable           |
| EC No.                    | Not applicable           |
| Molecular Formula         | Not applicable           |
| REACH Registration Number | -                        |
| UFI                       | No information available |

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

|                          |                              |
|--------------------------|------------------------------|
| Relevant identified uses | Please consult manufacturer. |
| Uses advised against     | Please consult manufacturer. |

### 1.3 Details of the supplier of the Safety Data Sheet

|                        |  |
|------------------------|--|
| Name of the company    | Weiyel Inc   |
| Address of the company | Hedian Light Industrial Park, Chengguan Town, Shangcheng County, Xinyang City, Henan Province, China |
| Post code              | 465350   |
| Telephone number       | 010-58103678   |
| Fax number             | 010-84840368   |
| E-mail address         | info@weiyel.com  |

### 1.4 Emergency telephone number

|                            |              |
|----------------------------|--------------|
| Emergency telephone number | 010-58103678 |
| Opening hours              | 24h          |

## 2 Hazards identification

### 2.1 CLP classification according to Regulation ( EC ) No. 1272/2008 with amendment 2023/707

According to Regulation (EC) No 1272/2008 and its amendments. Not classified as a dangerous substance.

### 2.2 Label elements

|                   |                |
|-------------------|----------------|
| Hazard pictograms | Not applicable |
| Signal word       | Not applicable |

### Hazard statements

|                          |                |
|--------------------------|----------------|
| <b>Hazard statements</b> | Not applicable |
|--------------------------|----------------|

### Precautionary statements

◆ Prevention

|                   |                |
|-------------------|----------------|
| <b>Prevention</b> | Not applicable |
|-------------------|----------------|

◆ Response

|                 |                |
|-----------------|----------------|
| <b>Response</b> | Not applicable |
|-----------------|----------------|

◆ Storage

|                |                |
|----------------|----------------|
| <b>Storage</b> | Not applicable |
|----------------|----------------|

◆ Disposal

|                 |                |
|-----------------|----------------|
| <b>Disposal</b> | Not applicable |
|-----------------|----------------|

### 2.3 Other hazards

◆ Results of PBT and vPvB assessment

| Component                | Results of PBT and vPvB assessment [according to (EC) No 1907/2006] |
|--------------------------|---|
| <b>Sodium fluoride</b>   | Not applicable  |
| <b>Sodium chloride</b>   | Not PBT/vPvB  |
| <b>Potassium bromide</b> | Not applicable  |
| <b>Sodium nitrite</b>    | Not applicable  |
| <b>Potassium nitrate</b> | Not applicable  |
| <b>Potassium sulfate</b> | Not applicable  |
| <b>Water</b>             | Insufficient information, temporarily unable to evaluate            |

◆ Results of endocrine disrupting properties assessment

| Component                | Results of endocrine disrupting properties assessment [according to (EU) No 2017/2100 or (EU) No 2018/605] |
|--------------------------|--|
| <b>Sodium fluoride</b>   | Insufficient information, temporarily unable to evaluate   |
| <b>Sodium chloride</b>   | Insufficient information, temporarily unable to evaluate   |
| <b>Potassium bromide</b> | Insufficient information, temporarily unable to evaluate   |
| <b>Sodium nitrite</b>    | Insufficient information, temporarily unable to evaluate   |
| <b>Potassium nitrate</b> | Insufficient information, temporarily unable to evaluate   |
| <b>Potassium sulfate</b> | Insufficient information, temporarily unable to evaluate   |
| <b>Water</b>             | Insufficient information, temporarily unable to evaluate   |

◆ Other

|  |                 |
|--|-----------------|
|  | Not applicable. |
|--|-----------------|

## 3 Composition/information on ingredients

### 3.1 Substance

|  |                |
|--|----------------|
|  | Not applicable |
|--|----------------|

### 3.2 Mixture

| Component   | Weight % content(or range) | Classification according to Regulation ( EC ) No. 1272/2008 with amendment 2023/707 [CLP]   | Specific Conc. Limits, M-factors |
|---|----------------------------|---|----------------------------------|
| <b>Sodium fluoride</b><br>CAS : 7681-49-4<br>EC : 231-667-8<br>Index No. : 009-004-00-7 | 0.01                       | Acute Toxicity - Oral, Category 3, H301;<br>Skin Corrosion/Irritation, Category 2, H315; Serious eye damage/irritation, Category 2, H319; Contact with acids liberates very toxic gas, EUH032 | -                                |
| <b>Sodium chloride</b><br>CAS : 7647-14-5<br>EC : 231-598-3<br>Index No. : -            | 0.01                       | Not Classified  | -                                |
| <b>Potassium bromide</b><br>CAS : 7758-02-3<br>EC : 231-830-3<br>Index No. : -          | 0.01                       | Serious eye damage/irritation, Category 2, H319   | -                                |
| <b>Sodium nitrite</b><br>CAS : 7632-00-0<br>EC : 231-555-9<br>Index No. : 007-010-00-4  | 0.01                       | Oxidizing solids, Category 3, H272; Acute Toxicity - Oral, Category 3, H301; Hazardous to the aquatic environment - short-term (acute) hazard, Category 1, H400                               | -                                |
| <b>Potassium nitrate</b><br>CAS : 7757-79-1<br>EC : 231-818-8<br>Index No. : -          | 0.01                       | Oxidizing solids, Category 3, H272  | -                                |
| <b>Potassium sulfate</b><br>CAS : 7778-80-5<br>EC : 231-915-5<br>Index No. : -          | 0.01                       | Not Classified  | -                                |
| <b>Water</b><br>CAS : 7732-18-5<br>EC : 231-791-2<br>Index No. : -                      | 99.94                      | Not Classified  | -                                |

## 4 First-aid measures

### 4.1 Description of first aid measures

|                                   |   |
|-----------------------------------|---|
| <b>General advice</b>             | Immediate medical attention is required. Show this safety data sheet (SDS) to the doctor in attendance.   |
| <b>Eye contact</b>                | Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician if feel uncomfortable.  |
| <b>Skin contact</b>               | Take off contaminated clothing and shoes immediately. Wash off with plenty of soap and water for at least 15 minutes and consult a physician if feel uncomfortable.   |
| <b>Ingestion</b>                  | Never give anything by mouth to an unconscious person. Call a physician or Poison Control Center immediately.   |
| <b>Inhalation</b>                 | Move victim into fresh air. If breathing is difficult, give oxygen. Do not use mouth to mouth resuscitation if victim ingested or inhaled the substance. If not breathing, give artificial respiration and consult a physician immediately. |
| <b>Protecting of first-aiders</b> | Ensure that medical personnel are aware of the substance involved. Take precautions to protect themselves and prevent spread of contamination.  |

### 4.2 Most important symptoms/effects, acute and delayed

|   |  |
|---|--|
| 1 | Substance accumulation, in the human body, may occur and may cause some concern following repeated or long-term occupational exposure. |
|---|--|

### 4.3 Indication of any immediate medical attention and special treatment needed

|   |                          |
|---|--------------------------|
| 1 | Treat symptomatically.   |
| 2 | Symptoms may be delayed. |

## 5 Fire-fighting measures

### 5.1 Extinguishing media

|                                |  |
|--------------------------------|--|
| Suitable extinguishing media   | Use extinguishing media suitable for surrounding area.                 |
| Unsuitable extinguishing media | There is no restriction on the type of extinguisher which may be used. |

### 5.2 Specific hazards arising from the substance or mixture

|   |   |
|---|---|
| 1 | Development of hazardous combustion gases or vapor possible in the event of fire. |
| 2 | May expand or decompose explosively when heated or involved in fire.              |

### 5.3 Advice for firefighters

|   |   |
|---|---|
| 1 | As in any fire, wear self-contained breathing apparatus (MSHA/NIOSH approved or equivalent) and full protective gear. |
| 2 | Fight fire from a safe distance, with adequate cover.   |
| 3 | Prevent fire extinguishing water from contaminating surface water or the ground water system.                         |

## 6 Accidental release measures

### 6.1 Personal precautions, protective equipment and emergency procedures

|   |   |
|---|---|
| 1 | Use personal protective equipment, do not breathe gas/mist/vapour/spray.  |
| 2 | Ensure adequate ventilation. Remove all sources of ignition. Take precautionary measures against static discharges. |
| 3 | Evacuate personnel to safe areas. Keep people away from and upwind of spill/leak.                                   |

### 6.2 Environmental precautions

|   |   |
|---|---|
| 1 | Prevent further leakage or spillage if safe to do so. |
| 2 | Discharge into the environment must be avoided.       |

### 6.3 Methods and materials for containment and cleaning up

|   |   |
|---|---|
| 1 | Cut off the source of the leak as much as possible.   |
| 2 | Keep leaks in a ventilated place.   |
| 3 | Absorb spilled material in dry sand or inert absorbent. In case of large amount of spillage, contain a spill by bunding.    |
| 4 | Adhered or collected material should be promptly disposed of, in accordance with appropriate laws and regulations.          |
| 5 | Contain spillage, and then collect with an electrically protected vacuum cleaner or by wet-brushing and place in container. |

### 6.4 Reference to other sections

|   |  |
|---|--|
| 1 | Personal Protective Equipment advice is contained in Section 8 of the SDS. |
| 2 | Disposal considerations advice is contained in Section 13 of the SDS.      |

## 7 Handling and storage

### 7.1 Precautions for safe handling

- ◆ Protective measures

|   |   |
|---|---|
| 1   | Handling is performed in a well ventilated place.     |
| 2   | Wear suitable protective equipment.                   |
| 3   | Avoid contact with skin and eyes.                     |
| ◆ Measures to prevent fire                        |   |
| 1   | Keep away from heat/sparks/open flames/ hot surfaces. |
| ◆ Measures to prevent aerosol and dust generation |   |
| 1   | Not applicable.                                       |
| ◆ Advice on general occupational hygiene          |   |
| 1   | Wash hands and face after using the substances.       |
| 2   | Replace the contaminated clothing immediately.        |

### 7.2 Conditions for safe storage, including any incompatibilities

|   |  |
|---|--|
| 1 | Keep containers tightly closed.                                  |
| 2 | Keep containers in a dry, cool and well-ventilated place.        |
| 3 | Keep away from heat/sparks/open flames/hot surfaces.             |
| 4 | Store away from incompatible materials and foodstuff containers. |

### 7.3 Specific end use(s)

|   |  |
|---|--|
| 1 | In addition to use mentioned in the Section 1.2, unforeseen other specific end uses. |
|---|--|

## 8 Exposure controls/personal protection

### 8.1 Control parameters

#### ◆ Occupational exposure limit values

| Component       | Country/Region  | Limit value - Eight hours |                   | Limit value - Short term |                   |
|-----------------|---|---------------------------|-------------------|--------------------------|-------------------|
|                 |   | ppm                       | mg/m <sup>3</sup> | ppm                      | mg/m <sup>3</sup> |
| Sodium fluoride | Permissible exposure standards for workers in the workplace | -                         | 2.5 (as F)        | -                        | 5 (as F)          |
|                 | France  | -                         | 2                 | -                        | -                 |
|                 | South Korea   | -                         | 2.5               | -                        | -                 |
|                 | USA - ACGIH   | -                         | 2.5(as F)         | -                        | -                 |

#### ◆ Biological limit values

| Component       | Standard   | Biological monitoring index         | Biological limits value | Sampling time          | Remark |
|-----------------|------------|-------------------------------------|-------------------------|------------------------|--------|
| Sodium fluoride | SCOEL(EU)  | Fluorine/urine                      | 8mg/L                   | end of shift           |        |
|                 |            | Fluoride(Urine)                     | 2mg/L                   | Prior to shift         |        |
|                 |            | Fluoride(Urine)                     | 3mg/L                   | End of shift           |        |
| Sodium nitrite  | USA -ACGIH | Methemoglobin( Hemoglobin in blood) | 5%                      | During or end of shift |        |

#### ◆ Monitoring methods

|   |   |
|---|---|
| 1 | EN 14042 Workplace atmospheres. Guide for the application and use of procedures for the assessment of exposure to chemical and biological agents. |
| 2 | GBZ/T 300 and GBZ/T 160 series standard Determination of toxic substances in workplace air.   |

◆ Derived No effect level (DNEL)

| Component         | Route of exposure | DNEL for Workers      |                          |                         |                            |
|-------------------|-------------------|-----------------------|--------------------------|-------------------------|----------------------------|
|                   |                   | Acute effects (local) | Acute effects (systemic) | Chronic effects (local) | Chronic effects (systemic) |
| Sodium fluoride   | Inhalation        | No data available     | No data available        | 2.5 mg/m <sup>3</sup>   | No data available          |
|                   | Oral              | No data available     | No data available        | No data available       | No data available          |
|                   | Dermal            | No data available     | No data available        | No data available       | No data available          |
| Sodium chloride   | Inhalation        | No data available     | No data available        | No data available       | 2068.62 mg/m <sup>3</sup>  |
|                   | Oral              | No data available     | No data available        | No data available       | No data available          |
|                   | Dermal            | No data available     | No data available        | No data available       | No data available          |
| Potassium bromide | Inhalation        | No data available     | No data available        | No data available       | 4.75 mg/m <sup>3</sup>     |
|                   | Oral              | No data available     | No data available        | No data available       | No data available          |
|                   | Dermal            | No data available     | No data available        | No data available       | No data available          |
| Sodium nitrite    | Inhalation        | No data available     | No data available        | No data available       | 2 mg/m <sup>3</sup>        |
|                   | Oral              | No data available     | No data available        | No data available       | No data available          |
|                   | Dermal            | No data available     | No data available        | No data available       | No data available          |
| Potassium nitrate | Inhalation        | No data available     | No data available        | No data available       | No data available          |
|                   | Oral              | No data available     | No data available        | No data available       | No data available          |
|                   | Dermal            | No data available     | No data available        | No data available       | No data available          |
| Potassium sulfate | Inhalation        | No data available     | No data available        | No data available       | 37.6 mg/m <sup>3</sup>     |
|                   | Oral              | No data available     | No data available        | No data available       | No data available          |
|                   | Dermal            | No data available     | No data available        | No data available       | No data available          |
| Water             | Inhalation        | No data available     | No data available        | No data available       | No data available          |
|                   | Oral              | No data available     | No data available        | No data available       | No data available          |
|                   | Dermal            | No data available     | No data available        | No data available       | No data available          |

◆ Predicted No Effect Concentration (PNEC)

| Component         | A        | B                 | C        | D                   | E                   | F                    | G                  | H                                |
|-------------------|----------|-------------------|----------|---------------------|---------------------|----------------------|--------------------|----------------------------------|
| Sodium fluoride   | 900 µg/L | No data available | 51 mg/L  | No data available   | No data available   | No data available    | 11 mg/kg soil dw   | No data available                |
| Sodium chloride   | 5 mg/L   | No data available | 500 mg/L | No data available   | No data available   | No data available    | 4.86 mg/kg soil dw | No potential for bioaccumulation |
| Potassium bromide | 520 µg/L | 41 mg/L           | 100 mg/L | No data available   | No data available   | No hazard identified | 3.2 mg/kg soil dw  | No potential for bioaccumulation |
| Sodium nitrite    | 5.4 µg/L | 6.16 µg/L         | 21 mg/L  | 19.5 µg/kg sediment | 22.3 µg/kg sediment | No data available    | 733 ng/kg soil dw  | No data available                |

| <b>Potassium nitrate</b> | No hazard identified | No hazard identified | 18 mg/L | No hazard identified | No hazard identified | No hazard identified | No hazard identified | No potential for bioaccumulation |
| <b>Potassium sulfate</b> | 680 µg/L             | 68 µg/L              | 10 mg/L | No data available    | No data available    | No data available    | No data available    | No potential for bioaccumulation |

**Note 1:**

A: Freshwater; B: Seawater; C: Sewage treatment plant; D: Sediment (freshwater); E: Sediment (seawater); F: Air; G: Soil; H: Secondary poisoning(Hazard for Predators).

**Note 2:**

The PNEC values of the remaining components not shown in the product are not available yet.

## 8.2 Exposure controls

### 8.2.1 Engineering controls

|   |  |
|---|--|
| 1 | Ensure adequate ventilation, especially in confined areas.                             |
| 2 | Ensure that eyewash stations and safety showers are close to the workstation location. |
| 3 | Use explosion-proof electrical/ventilating/lighting/equipment.                         |
| 4 | Set up emergency exit and necessary risk-elimination area.                             |

### 8.2.2 Personal protection equipment

|                                 |   |
|---------------------------------|---|
| <b>General requirement</b>      | No special requirements, please see the description below.  |
| <b>Eye protection</b>           | In general situation, eye protection is not needed. In the production process, when contacting with vapour or dust, tightly fitting safety goggles.                                       |
| <b>Hand protection</b>          | In general situation, hand protection is not needed.  |
| <b>Respiratory protection</b>   | In general situation, respiratory protection is not needed. If exposure limits are exceeded or if irritation or other symptoms are experienced, wear dust proof mask or gas defence mask. |
| <b>Skin and body protection</b> | In general situation, skin and body protection are not needed.  |

### 8.2.3 Environmental exposure controls

|  |                          |
|--|--------------------------|
| <b>Environmental exposure controls</b> | No information available |
|--|--------------------------|

## 9 Physical and chemical properties

### 9.1 Information on basic physical and chemical properties

|  |                          |
|--|--------------------------|
| <b>Physical state</b>                              | Clear, colorless liquid  |
| <b>Colour</b>                                      | Clear, colorless liquid  |
| <b>Odor</b>  | Odorless                 |
| <b>Odor threshold</b>                              | No information available |
| <b>pH</b>  | 7 (Neutral)              |
| <b>Melting point/freezing point(°C)</b>            | No information available |
| <b>Initial boiling point and boiling range(°C)</b> | >35                      |
| <b>Flash point(Closed cup, °C)</b>                 | No information available |

|                                       |   |
|---------------------------------------|---|
| Evaporation rate                      | No information available  |
| Flammability                          | No information available  |
| Upper/lower explosive limits[%(v/v)]  | Upper limit : No information available ; Lower limit : No information available |
| Vapor pressure                        | No information available  |
| Vapor density(Air = 1)                | No information available  |
| Relative density(Water=1)             | No information available  |
| Solubility                            | No information available  |
| n-octanol/water partition coefficient | No information available  |
| Auto-ignition temperature(°C)         | No information available  |
| Decomposition temperature(°C)         | No information available  |
| Kinematic viscosity                   | No information available  |
| Explosive properties                  | No information available  |
| Oxidizing properties                  | No information available  |
| Particle characteristics              | Not applicable  |

## 9.2 Other information

### 9.2.1 Information with regard to physical hazard classes

|  |                          |
|--|--------------------------|
| Information with regard to physical hazard classes | No information available |
|--|--------------------------|

### 9.2.2 Other safety characteristics

|                              |                          |
|------------------------------|--------------------------|
| Other safety characteristics | No information available |
|------------------------------|--------------------------|

## 10 Stability and reactivity

### Stability and reactivity

|   |   |
|---|---|
| 10.1 Reactivity                         | Contact with incompatible substances can cause decomposition or other chemical reactions.   |
| 10.2 Chemical stability                 | Stable under proper operation and storage conditions.   |
| 10.3 Possibility of hazardous reactions | Mixture with active metal powders may explode intensely if heated. In contact with active metals (alkali metals, Na, Ca etc.) causes a reaction and release hydrogen.   |
| 10.4 Conditions to avoid                | Incompatible materials, heat, flame and spark.  |
| 10.5 Incompatible materials             | Active metal powder, non-metal elemental powder, sulfide, metal amino compound, metal acetylene compound, phenols, metal sulfamate, metal cyanide, thiocyanate, phosphide, hypophosphite, carboxylic acid, carboxylic anhydride, Carboxylic acid esters, ethanol, reducing agents and performic acid. Alkali, sodium, calcium, and other active metal, halogen, metal oxide, nonmetal oxide, acyl halide and metal phosphide. |
| 10.6 Hazardous decomposition products   | Under normal conditions of storage and use, hazardous decomposition products should not be produced.  |

## 11 Toxicological information

### 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008 with amendment 2023/707

| 6 Mix Anions Solution     |  |
|---------------------------|--|
| Skin corrosion/irritation | Based on available data, the classification criteria are not met |

|                                      |  |
|--------------------------------------|--|
| <b>Serious eye damage/irritation</b> | Based on available data, the classification criteria are not met |
| <b>Skin sensitization</b>            | Based on available data, the classification criteria are not met |
| <b>Respiratory sensitization</b>     | Based on available data, the classification criteria are not met |
| <b>Reproductive toxicity</b>         | Based on available data, the classification criteria are not met |
| <b>STOT-single exposure</b>          | Based on available data, the classification criteria are not met |
| <b>STOT-repeated exposure</b>        | Based on available data, the classification criteria are not met |
| <b>Aspiration hazard</b>             | Based on available data, the classification criteria are not met |
| <b>Germ cell mutagenicity</b>        | Based on available data, the classification criteria are not met |

### | Acute toxicity

| Component         | LD <sub>50</sub> (oral) | LD <sub>50</sub> (dermal) | LC <sub>50</sub> (inhalation,4h) |
|-------------------|-------------------------|---------------------------|----------------------------------|
| Potassium bromide | 3070mg/kg(Rat)          | No information available  | No information available         |
| Sodium fluoride   | 180mg/kg(Rat)           | No information available  | No information available         |
| Sodium nitrite    | 180mg/kg(Rat)           | No information available  | 5.5mg/L(Rat)                     |
| Sodium chloride   | 3000mg/kg(Rat)          | > 10000mg/kg(Rabbit)      | No information available         |
| Potassium nitrate | 3750mg/kg(Rat)          | No information available  | No information available         |
| Potassium sulfate | 6600mg/kg(Rat)          | No information available  | No information available         |

### | Carcinogenicity

| Component         | List of carcinogens by the IARC Monographs | Report on Carcinogens by NTP |
|-------------------|--|------------------------------|
| Sodium fluoride   | Not Listed                                 | Not Listed                   |
| Sodium chloride   | Not Listed                                 | Not Listed                   |
| Potassium bromide | Not Listed                                 | Not Listed                   |
| Sodium nitrite    | Not Listed                                 | Not Listed                   |
| Potassium nitrate | Not Listed                                 | Not Listed                   |
| Potassium sulfate | Not Listed                                 | Not Listed                   |
| Water             | Not Listed                                 | Not Listed                   |

## | 11.2 Information on other hazards

### | 11.2.1 Endocrine disrupting properties

| Component         | Endocrine disrupting properties |
|-------------------|---------------------------------|
| Sodium fluoride   | No information available        |
| Sodium chloride   | No information available        |
| Potassium bromide | No information available        |
| Sodium nitrite    | No information available        |
| Potassium nitrate | No information available        |
| Potassium sulfate | No information available        |
| Water             | No information available        |

### | 11.2.2 Other Information

Other Information | See Section 11.1

## 12 Ecological information

### 12.1 Toxicity

#### Acute aquatic toxicity

| Component         | Fish                                     | Crustaceans                                    | Algae or other aquatic plants            |
|-------------------|--|--|--|
| Potassium bromide | LC <sub>50</sub> :440mg/L (96h)(Fish)    | No information available                       | No information available                 |
| Sodium fluoride   | LC <sub>50</sub> : 51mg/L (96h)(Fish)    | EC <sub>50</sub> : 98mg/L (48h)(Crustaceans)   | ErC <sub>50</sub> : 900mg/L (96h)(Algae) |
| Sodium nitrite    | LC <sub>50</sub> : 0.675mg/L (96h)(Fish) | No information available                       | No information available                 |
| Sodium chloride   | LC <sub>50</sub> : 5840mg/L (96h)(Fish)  | EC <sub>50</sub> : 2120mg/L (48h)(Crustaceans) | No information available                 |
| Potassium nitrate | LC <sub>50</sub> : > 100mg/L (96h)(Fish) | EC <sub>50</sub> : 490mg/L (48h)(Crustaceans)  | No information available                 |
| Potassium sulfate | LC <sub>50</sub> :680mg/L (96h)(Fish)    | No information available                       | No information available                 |

#### Chronic aquatic toxicity

| Component         | Fish                     | Crustaceans              | Algae or other aquatic plants |
|-------------------|--------------------------|--------------------------|-------------------------------|
| Sodium fluoride   | No information available | No information available | NOEC : $\geq$ 210mg/L(Algae)  |
| Potassium nitrate | NOEC : 58mg/L(Fish)      | No information available | No information available      |

### 12.2 Persistence and degradability

| Component         | Persistence (water/soil) | Persistence (air) |
|-------------------|--------------------------|-------------------|
| Sodium fluoride   | Low                      | Low               |
| Sodium chloride   | Low                      | Low               |
| Potassium bromide | High                     | High              |

### 12.3 Bioaccumulative potential

| Component         | Bioaccumulative potential | Comments        |
|-------------------|---------------------------|-----------------|
| Sodium fluoride   | Low                       | BCF=6.4         |
| Sodium chloride   | Low                       | Log Kow=0.5392  |
| Potassium bromide | Low                       | Log Kow=-0.3713 |

### 12.4 Mobility in soil

| Component         | log Koc | Remark |
|-------------------|---------|--------|
| Sodium fluoride   | 1.155   |        |
| Sodium chloride   | 1.155   |        |
| Potassium bromide | -1.00   | 20 °C  |

## 12.5 Results of PBT and vPvB assessment

| Component         | Results of PBT and vPvB assessment [according to (EC) No 1907/2006] |
|-------------------|---|
| Sodium fluoride   | Not applicable  |
| Sodium chloride   | Not PBT/vPvB  |
| Potassium bromide | Not applicable  |
| Sodium nitrite    | Not applicable  |
| Potassium nitrate | Not applicable  |
| Potassium sulfate | Not applicable  |
| Water             | Insufficient information, temporarily unable to evaluate            |

## 12.6 Endocrine disrupting properties

| Component         | Endocrine disrupting properties |
|-------------------|---------------------------------|
| Sodium fluoride   | No information available        |
| Sodium chloride   | No information available        |
| Potassium bromide | No information available        |
| Sodium nitrite    | No information available        |
| Potassium nitrate | No information available        |
| Potassium sulfate | No information available        |
| Water             | No information available        |

## 12.7 Other adverse effects

|  |                          |
|--|--------------------------|
|  | No information available |
|--|--------------------------|

## 13 Disposal considerations

### 13.1 Waste treatment methods

|                          |  |
|--------------------------|--|
| Waste chemicals          | Before disposal should refer to the relevant national and local laws and regulation. Recommend the use of incineration disposal.                       |
| Contaminated packaging   | Containers may still present chemical hazard when empty. Keep away from hot and ignition source of fire. Return to supplier for recycling if possible. |
| Disposal recommendations | Refer to section waste chemicals and contaminated packaging.   |

## 14 Transport information

### Label and Mark

|                    |                |
|--------------------|----------------|
| Transporting Label | Not applicable |
|--------------------|----------------|

### IMDG-CODE

|           |  |
|-----------|--|
| IMDG-CODE | NOT REGULATED FOR TRANSPORT OF DANGEROUS GOODS |
|-----------|--|

### IATA-DGR

|          |  |
|----------|--|
| IATA-DGR | NOT REGULATED FOR TRANSPORT OF DANGEROUS GOODS |
|----------|--|

### UN-ADR

UN-ADR | NOT REGULATED FOR TRANSPORT OF DANGEROUS GOODS

**Special precautions for user**

Transport vehicles should be equipped with the appropriate variety and quantity of fire equipment and emergency equipment leakage during transport. Before transport, should be preceded by checking whether container integrity, sealing. The transport unit must be placarded and marked in accordance with relevant transporting requirements.

**Maritime transport in bulk according to IMO instruments**

- ◆ Transport in bulk according to Annex II of MARPOL and the IBC code

Not Available

- ◆ Transport in bulk in accordance with MARPOL Annex V and the IMSBC Code

Not Available

- ◆ Transport in bulk in accordance with the IGC Code

Not Available

 “x” No data or not included in the regulations.

### German water hazard class(WGK)

| Component                | WGK   | Remark |
|--------------------------|-------|--------|
| <b>Sodium fluoride</b>   | WGK 1 |        |
| <b>Sodium chloride</b>   | WGK 1 |        |
| <b>Potassium bromide</b> | WGK 2 |        |
| <b>Sodium nitrite</b>    | WGK 3 |        |
| <b>Potassium nitrate</b> | WGK 1 |        |
| <b>Potassium sulfate</b> | WGK 1 |        |

- [WGK 1]** slightly hazardous to water  
**[WGK 2]** obviously hazardous to water  
**[WGK 3]** highly hazardous to water  
**[nwg]** non-hazardous to water  
**[awg]** hazardous to water in general

### German technical instructions on air quality control(TA LUFT)

| Component                | TA LUFT   | Remark |
|--------------------------|---|--------|
| <b>Sodium fluoride</b>   | Chapter 5.2.2 Inorganic dusts. Class III. Also with the presence of several substances of the same class, the following values are in all not allowed to be exceeded in the exhaust gas: Mass flow: 5 g/hr or Mass conc.: 1 mg/m <sup>3</sup> . Specified as F. Scope: highly soluble fluorides.  |        |
| <b>Sodium chloride</b>   | Chapter 5.2.1 Overall Dust, including fine dust. The emissions of dust in the exhaust gas are not allowed to exceed the following values: Mass flow: 0,20 kg/hr or Mass conc.: 20 mg/m <sup>3</sup> The mass per unit volume of 0,15 g/m <sup>3</sup> in exhaust gas is not allowed to be exceeded also on observance or lower deviation of a mass flow of 0,20 kg/h. For emission sources that exceed the mass flow rate of 0.40 kg/h, the mass concentration in waste gas the mass concentration must not exceed 10 mg/m <sup>3</sup> . |        |
| <b>Potassium bromide</b> | Chapter 5.2.1 Overall Dust, including fine dust. The emissions of dust in the exhaust gas are not allowed to exceed the following values: Mass flow: 0,20 kg/hr or Mass conc.: 20 mg/m <sup>3</sup> The mass per unit volume of 0,15 g/m <sup>3</sup> in exhaust gas is not allowed to be exceeded also on observance or lower deviation of a mass flow of 0,20 kg/h. For emission sources that exceed the mass flow rate of 0.40 kg/h, the mass concentration in waste gas the mass concentration must not exceed 10 mg/m <sup>3</sup> . |        |
| <b>Sodium nitrite</b>    | Chapter 5.2.1 Overall Dust, including fine dust. The emissions of dust in the exhaust gas are not allowed to exceed the following values: Mass flow: 0,20 kg/hr or Mass conc.: 20 mg/m <sup>3</sup> The mass per unit volume of 0,15 g/m <sup>3</sup> in exhaust gas is not allowed to be exceeded also on observance or lower deviation of a mass flow of 0,20 kg/h. For emission sources that exceed the mass flow rate of 0.40 kg/h, the mass concentration in waste gas the mass concentration must not exceed 10 mg/m <sup>3</sup> . |        |
| <b>Potassium nitrate</b> | Chapter 5.2.1 Overall Dust, including fine dust. The emissions of dust in the exhaust gas are not allowed to exceed the following values: Mass flow: 0,20 kg/hr or  |        |

|                          |   |  |
|--------------------------|---|--|
|                          | Mass conc.:20 mg/m <sup>3</sup> The mass per unit volume of 0,15 g/m <sup>3</sup> in exhaust gas is not allowed to be exceeded also on observance or lower deviation of a mass flow of 0,20 kg/h.For emission sources that exceed the mass flow rate of 0.40 kg/h, the mass concentration in waste gas the mass concentration must not exceed 10 mg/m <sup>3</sup> .  |  |
| <b>Potassium sulfate</b> | Chapter 5.2.1 Overall Dust, including fine dust. The emissions of dust in the exhaust gas are not allowed to exceed the following values:Mass flow:0,20 kg/hr or Mass conc.:20 mg/m <sup>3</sup> The mass per unit volume of 0,15 g/m <sup>3</sup> in exhaust gas is not allowed to be exceeded also on observance or lower deviation of a mass flow of 0,20 kg/h.For emission sources that exceed the mass flow rate of 0.40 kg/h, the mass concentration in waste gas the mass concentration must not exceed 10 mg/m <sup>3</sup> . |  |

### | German technical rules for hazardous substances(TRGS)
